This conference has been developed to build a shared understanding of the direction of long-term care and provide information on important initiatives in the field. We expect over 500 attendees, including consumers, advocates, providers, and policy-makers. We plan to:

- 1) Promote awareness of Michigan's implementation plans for the Medicaid Long-Term Care Task Force Report
- 2) Develop a shared understanding of long-term care economic challenges and opportunities
- 3) Provide information on national perspectives for long-term care reform
- 4) Share information on promising practices in long-term care arising from national and state initiatives, including Michigan's Real Choice Systems Change Grants

State & federal perspectives on long-term care issues
