Mailing Address 4500 N. Dort Hwy	Area Code & Phone number 810-787-6537
City Flint	State MI
ZIP Code 48505	

Put the time the sample was collected here.

Mark AM or PM.

Put the date the sample was collected here.

SAMPLE COLLECTION INFORMATION (PLEASE PRINT)

Sample Collector Name Put your name here.	Date Collected	Time Collected	<input type="radio"/> AM <input type="radio"/> PM
Collector Code	<input type="radio"/> 0 - County Personnel	<input type="radio"/> 1 - Water Supply Operator	
	<input checked="" type="radio"/> 3 - Private Citizen	<input type="radio"/> 4 - DEQ Staff other than DW	
	<input type="radio"/> 9 - Other	System/Owner Name	
Collection Site (Street Address) Street address here.	Township (If known)	Section (If known)	
City City here (probably Flint).	County Genesee	ZIP Code Zip code here.	Well Number (If more than one)
Sampling Point <input checked="" type="radio"/> Kitchen <input type="radio"/> Bathroom	Site Code or Permit Number (If known)		

Mark this circle.

Mark where the sample came from - kitchen or bathroom. The kitchen is usually the best place to sample because most people get their drinking and cooking water there.

TEST CODE	INVESTIGATION UNIT #	DRINKING WATER TEST
CCUB	36CC - 1 Liter	Lead/Copper for Investigation

Return sample and form to either Flint City Hall or the Flint Water Plant.
 Samples must be received in the laboratory within 14 days of collection.

DRINKING WATER LEAD AND COPPER SAMPLING INSTRUCTIONS

Thank you for helping to monitor for lead and copper in your drinking water.

It is important that you follow these instructions so we obtain an accurate measurement of the lead and copper in your drinking water.

Do not open the bottle until instructed in step 3. Do not touch the inside of cap or bottle.

- 1. The water in the house must not have been used for a minimum of six (6) hours prior to sampling.** The best times to sample are early morning or after returning from work. **Do not flush the sample tap before sample collection.**
- 2. Select a cold water faucet** in the **KITCHEN** or **BATHROOM** that is commonly used for drinking and has been used within the last 24 hours. **No other faucets are acceptable for collection.** If the faucet is connected to a faucet mount filter, water softener, iron filter or reverse osmosis system, etc. the treatment device must be removed or bypassed.

Enter the date and time (include AM or PM) the faucet was last used before you collected the sample - should be at least 6 hours before the sample is collected.

When was the faucet last used before sampling? Date TIME AM/PM

Please answer the questions.

Is there a faucet-mount filter? YES NO If YES, was it bypassed? YES NO

Is this faucet connected to a home treatment device such as a water softener, a reverse osmosis unit, an iron removal device OR is any kind of additive used in the home? YES NO

If YES, please describe:

If YES, was it bypassed? YES NO

3. Open sample bottle and place below the faucet and gently open the COLD water tap. If you have a single handle faucet, turn it fully to the **COLD** side. Fill the sample bottle to within an inch of the top with the "first draw" of **COLD** water.

4. Tightly cap the sample bottle

If any plumbing repairs or replacement has been done in the home since the previous sampling event, please note this information here:

If YES, please describe:

5. Fill out the collection information on the front, answer the questions below and sign the form.

6. Attach this form to the bottle and return it to either Flint City Hall or the Flint Water Plant.

7. Thank you again for your help. We will send you your individual results within 30 days of receiving them from the laboratory. A summary of information on this year's lead and copper monitoring will be printed in the annual water quality report that will be made available by July 1 of this year. Contact your water supply if you have questions.

If you have any questions contact:

City of Flint Water Plant

4500 N. Dort Hwy.

Phone: 810-787-6537 ext. 3501

I have read the Drinking Water Lead and Copper Sampling Instructions and have taken a tap sample in accordance with these directions.
