General Retention Schedule #11 Local Law Enforcement Agencies

Item Number	Series Title and Description	Total Retention
-------------	------------------------------	-----------------

Intro:

The Michigan Freedom of Information Act (FOIA) (Public Act 442 of 1976, as amended) defines public records as recorded information “prepared, owned, used, in the possession of, or retained by a public body in the performance of an official function, from the time it is created.

Michigan law (MCL 399.5 and 750.491) requires that all public records be listed on an approved Retention and Disposal Schedule that identifies how long the records must be kept to satisfy administrative, legal, fiscal and historical needs. Records cannot be destroyed unless they’re listed on an approved Retention and Disposal Schedule. Retention and Disposal Schedules are not authorized until the Records Management Services, the State Archives of Michigan and the State Administrative Board approve them. There are two types of schedules that local government agencies may use alone or in conjunction with each other:

A “**general schedule**” will cover records that are common to a particular type of government agency. General schedules may not address every single record that a particular agency may have in its possession. General schedules do not mandate that any of the records listed on the schedule be created. However, if they are created in the normal course of business, the schedule establishes a minimum retention period for them.

Any record that is not covered by a general schedule must be listed on an “**agency specific schedule**” that will address records that are unique to a particular government agency. Items listed on agency-specific schedules always supersede items listed on general schedules. Agency-specific schedules only address the specific records of the agency named on the schedule, and may not be used by another agency.

A scenario of where a government agency may want to use a combination of schedules would be to adopt General Schedule # 11 for Law Enforcement Agencies while also adopting General Schedule # 1 – Non Record Material. Then if the government agency still has a specific record series that is not covered on these schedules they would submit an agency specific schedule for that particular record series. Once the agency specific schedule was authorized by the state, the local government agency could utilize all three schedules in conjunction with each other to meet their destruction needs. This would allow a local government agency to have a comprehensive retention and disposal schedule in place with minimal effort on their part.

Records can exist in a wide variety of formats, including paper, maps, photographs, digital images, e-mail messages, databases, etc. The retention periods listed on this general schedule may or may not specify the format that the record may exist in because each government agency that adopts this schedule may choose to retain its records using different formats.

Government agencies are responsible for ensuring that their records are properly retained and remain accessible during this entire retention period. Various laws identify acceptable formats for retaining public records; agencies are responsible for understanding and complying with these laws. Select records series that are listed on this schedule may be exempt from public disclosure, in accordance with the provisions of the Freedom of Information Act. Please consult with your attorney or Records Management Services if you need additional information.
