

DRIVING INNOVATION

**DEARBORN, MICHIGAN
September 26 - 30, 2010**

INVITATION TO PRESENT

The 2010 International Highway Engineering Exchange Program (IHEEP) Technical Program Committee is scouring the four corners of the earth for innovative and interesting presentations for the 2010 conference.

In times of declining budgets it is difficult to obtain out of state travel but it is during these times that collaboration with other Agencies is most critical. We must share our victories and mistakes to ensure we spend our tax dollars wisely. Each of us has valuable experiences to share with our peers. If you are interested in presenting we would like to assist you with obtaining approval for out of state travel. To communicate the importance of your participation The Michigan Department of Transportation will send a letter to your Agency requesting you to speak on a given topic. If expenses are a concern we can assist with finding creative funding sources.

With a strong technical program and excellent social events this conference will be one to remember. We would like you to be part of those memories. Please contact me for assistance.

Daniel J. Belcher

A handwritten signature in black ink that reads "D. J. Belcher".

2010 IHEEP President
