initiative

Agenda

3

- Welcome and Introductions
- Review of Key Terms and Concepts
- State Policy and Program Updates
- Federal Policy and Program Updates
- Upcoming Engagement Opportunities

What is Early Childhood Home Visiting?

4

Michigan's **early childhood home visiting programs** provide voluntary, prevention-focused family support services in the homes of pregnant women and families with children aged 0-5.

How Does Early Childhood Home Visiting Work?

5

Michigan's early childhood home visiting programs connect trained professionals with vulnerable and at-risk mothers and families to nurture, support, coach, educate and offer encouragement with the goal that all children grow and develop in a safe and stimulating environment.

What Does the Michigan Home Visiting Initiative Do?

6

The **Michigan Early Childhood Home Visiting Initiative** is:

- ***Creating a Vision***--by engaging partners in a collaborative process to plan and implement policies, procedures, standards, measures and funding mechanisms that support common goals;
- ***Strengthening the Home Visiting Infrastructure***--by improving the quality of the system and supporting the use of evidence-based model programs;
- ***Promoting Positive Outcomes***--by measuring and reporting progress toward improving child health and safety, supporting healthy development, reducing family violence, improving maternal child health, and encouraging economic self-sufficiency.

PA 291 of 2012 Report Release!

PA 291 of 2012: What is it?

10

- Legislatively required report on performance of HV programs in Michigan
- Second annual report transmitted to legislature in December 2014
- Report period covers 10/1/2013-10/1/14

Report Highlights

- Documents state of Michigan Home Visiting Programs...**we are strong!**
- Describes funding streams and program administration of state and federal HV programs
- Describes Michigan HV Indicator work and presents data snapshot on 6 indicators

Michigan Indicator Data

12

- Result of year-long process
- 10 initial indicators selected measuring process and outcomes of HV; 6 reported in 2014
- Data reported, as possible, for all HV programs in Michigan

What We Learned

- Data collection and reporting windows don't always match legislative timeframes
- MIHP and MIECHV programs measure data differently making apples-apples comparisons difficult
- Results based accountability is not apples-apples comparison

Michigan Indicator Data

14

Indicator	Definition	Reported %
Prenatal Care	% of women receiving adequate prenatal care	66.9%
Preterm Birth	% of women enrolled in HV who delivered before 37 weeks	13%
Breastfeeding	% of mothers BF at program exit (MIHP) % of mothers who initiated BF during program (MIECHV)	26.1% (MIHP) 76.7% (MIECHV)
Maternal Tobacco Use	% of mothers reporting smoking % of mothers reporting tobacco use	23.6% (MIHP) 13% (MIECHV)
Maternal Depression	% of women receiving depression screening	98.5%
Child Development Screen	% of children referred for services based on ASQ	4%
Well Child Visits	% of children who received last well child visit	Coming in 2015!
Maternal Insurance	% of women who had insurance at 6 months post-enrollment	Coming in 2015!
Child Maltreatment	% of children in families with substantiated maltreatment	Coming in 2015!
Maternal Education	% of women who have achieved HS completion of equivalent	Coming in 2015!

Demographics

15

Number of 2014 Enrollees

1.1%	42.1%	.1%	1.7%	44.9%	4.6%	3.6%		1.9%

Ethnicity

Hispanic	Not Hispanic	Unknown						Unknown
8.3%	91.3%	.4%						115

Rural Expansion Grants

16

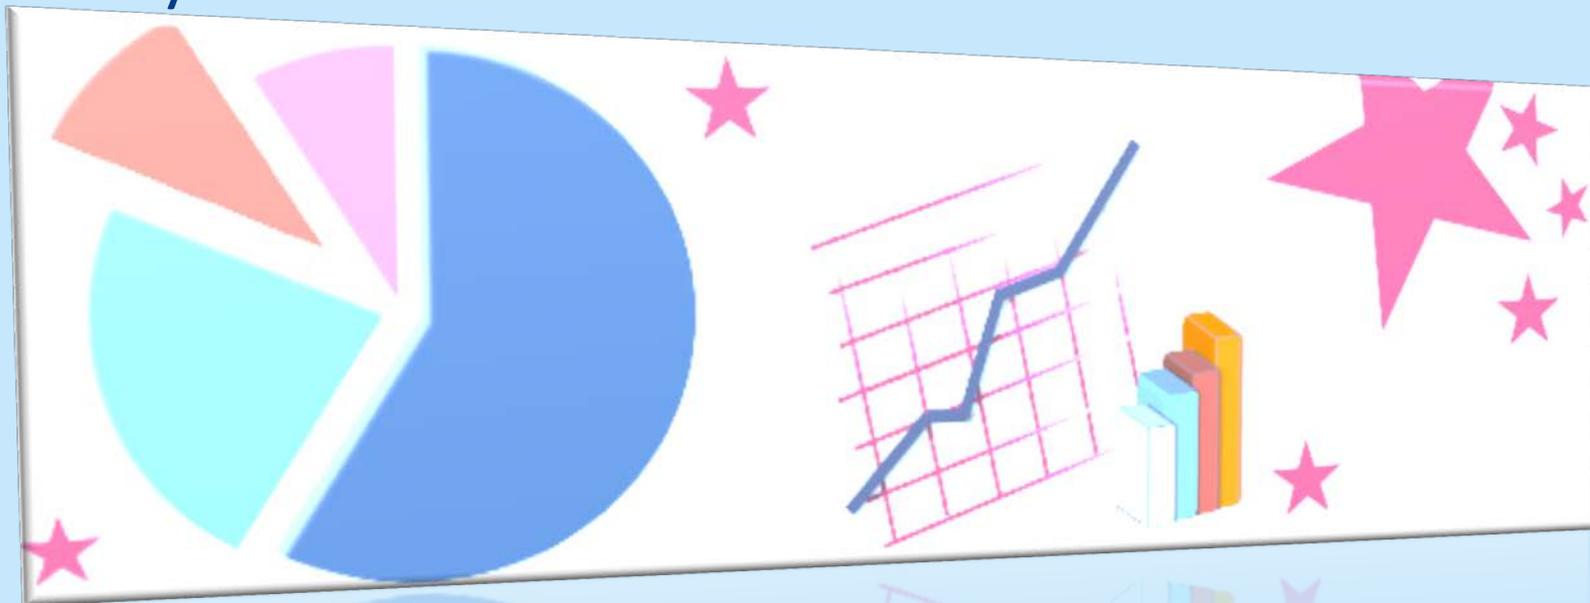

- All 3 regions have completed the Exploration and Planning Phase
- Data and needs analysis led each to determine that the Healthy Families America (HFA) is best fit for their regions' needs
- Luce-Mackinac-Alger-Schoolcraft District Health Department will oversee work in Region I
- Health Department of Northwest Michigan will oversee work in Regions II and III
- Budgets are submitted and both entities are preparing to hire staff

Federal Policy and Program Updates

DGIS Data Submission

- Required annual report on HV programs funded through MIECHV
- 3 years of data now available

DGIS Data- What We Know

19

- Overall, Michigan **exceeded** federal MIECHV expectations by improving performance in over half of the benchmarks established for the program.
- Michigan **showed improvement** in school readiness and achievement, increasing referrals for development concerns in children and assuring high levels of support for caregivers
- Michigan **maintained** high screening rates for domestic violence and **made progress** in providing referrals for domestic violence services.

DGIS Data- What We Know

- Families served by MIECHV **showed improvement** in family economic self-sufficiency, with an increase in household income and benefits, as well as an increase in hours spent in paid employment.
- Coordination and referrals for other community resources and supports **improved** as well, with increased identification and referral for community service needs.
- Michigan will **continue to work toward improvement** in the area of child injuries, child abuse, neglect, or maltreatment, particularly through reducing emergency department utilization and preventing child maltreatment.

Upcoming Engagement Opportunities

Events, Webinars and Training
