Article 1 – Statement of Work (SOW)

1.0 Project Identification

1.001 PROJECT REQUEST

The No Child Left Behind (NCLB) Act of 2001 requires that all teachers demonstrate that they are highly qualified by 2006. This requirement greatly impacts small and rural schools that have relied on their middle and high school teachers to teach multiple subjects. Under NCLB teachers can only teach in subjects in which they hold a major or if teaching in a minor subject area they must pass a state content test or take additional coursework. The current project will focus on identifying the professional development and educational needs of small and rural school teachers to meet NCLB Requirements.

1.02 BACKGROUND

Under Title II of NCLB, Michigan has been awarded funds to implement projects that will assure that all Michigan teachers are highly qualified by 2006. The rural initiative project is one of several projects aimed at meeting this goal.

1.1 Scope of Work and Deliverables

1.101 IN SCOPE

To support small and rural school districts in Michigan and to ensure that those districts meet the requirements of NCLB, the Michigan Department of Education (MDE) must gain a better understanding of the conditions of the small and rural school districts in the state. Specifically, the MDE needs to know if the rural districts in Michigan mirror the problems in rural school districts across the United States. To answer this question and gather information about rural schools, MDE plans to work with a college or university in gathering data about rural schools, their teachers, and their students. Specifically, the following questions need to be asked to provide directions for teacher preparation programs that specialize in rural education:

1. What are the types of teachers working in rural school districts? (demographics, certification information, hiring trends, etc.)
2. What activities support recruiting and retaining highly qualified teachers?
3. What do the rural school districts do to implement continuous improvement through curriculum and teacher renewal?
4. What are the student demographics?
5. What programs do the rural schools offer for the students?
6. What are the student achievement levels?
7. What are the post-secondary trends of the rural students?
8. What types of professional development do the rural schools sponsor?

1.102 OUT OF SCOPE

Providing professional development or training educators is not within the scope of this project. This project is primarily a needs assessment project that will lead to recommendations on how to address the identified needs.

1.103 TECHNICAL ENVIRONMENT

The contractor will be responsible for any hardware or software needs related to the survey.

1.104 WORK AND DELIVERABLE

Contractor shall provide Services and staff, and otherwise do all things necessary for or incidental to the performance of work, as set forth below:

The lead agency in the proposed statewide initiative to gather data on rural school districts will partner with Central Michigan University (CMU) and Northern Michigan University (NMU) as well as Wexford-Missaukee Intermediate School District (W-MISD) and Newaygo County Regional Educational Service District (NCRESA). The contractor will gather the data in the following three phases with each phase providing a finer view of the needs of rural school districts:

Phase I	<p>Using baseline data available through school report cards, the contractor will develop a survey to be disseminated to the 102 Michigan school districts participating in the Small Rural Schools Achievement Program. It will analyze the survey data, and share the data with the MDE.</p> <p>Survey Development (June 2005) Dissemination (June 2005) Data Analysis (July 2005) Report (September 2005)</p> <p>Acceptance criteria: MDE staff has reviewed the survey and made recommended changes. MDE will review the results of the survey prior to release or publication to the general public.</p>
Phase II	<p>The contractor and its partners will conduct focus groups with rural educators through the Northern Lower Michigan Learning consortium, a professional development coalition for rural school districts.</p> <p>Acceptance criteria: The contractor will provide a list of the focus group meetings and comments from each group. MDE will review comments.</p>
Phase III	<p>The contractor and NCRESD are partnering in a Teacher Quality Enhancement Program initiative. Data from the activities of that program specifically the School-level Environmental Questionnaire will be included in the analysis.</p> <p>Acceptance criteria: MDE will review the results of the analysis prior to release or publication to the general public.</p>

1.2 Roles and Responsibilities

1.201 CONTRACTOR STAFF, ROLES, AND RESPONSIBILITIES

The project Director must be affiliated with the college of education at an approved Michigan teacher preparation institution. The project director will have research and work experience with rural schools.

1.202 STATE STAFF, ROLES, AND RESPONSIBILITIES

Dr. Flora L. Jenkins, Director of the Office of Professional Preparation Services (OPPS) will be the MDE key contact person. All correspondence regarding the grant will be handled by Dr. Jenkins.

1.203 OTHER ROLES AND RESPONSIBILITIES

Dr. Frank Ciloski will act as backup to Dr. Jenkins. Dr. Ciloski is the Supervisor of the Client Services unit of the OPPS.

1.3 Project Plan

1.301 PROJECT PLAN MANAGEMENT

The project plan has been identified in section 1.104. The plan will be updated as needed based on the availability of local school district personnel.

1.302 REPORTS

The final project report will be due no later than 30 days after the project ending date of September 30, 2005. The MDE will schedule an appointment with the vendor to present the results of the survey to the State Board of Education.

1.4 Project Management

1.401 ISSUE MANAGEMENT

The major issue related to the success of the project is the amount of time it takes to complete the state bid process. The contractor will need to inform the MDE if there is not enough time left in the school year to complete the survey. If not, the survey will have to be conducted during the first two weeks of the 2005-06 school year.

1.402 RISK MANAGEMENT

No apparent risks can be identified given the limited scope of this project.

1.403 CHANGE MANAGEMENT

Any material changes or modifications to the project must be requested in writing to Dr. Jenkins. Dr. Jenkins will review the request and either approve or deny based on the reasonableness of the request and whether or not it will have a negative impact on the project.

1.5 Acceptance

1.501 CRITERIA

The following criteria will be used by the State to determine Acceptance of the Services and/or Deliverables provided under this SOW.

- The MDE must be kept informed of the progress of the project on a bi-weekly basis through either e-mail or other written correspondence to Dr. Jenkins.
- The preliminary results of the survey must be forwarded to Dr. Jenkins for review prior to finalization of the written report.
- A draft of the written report, including all data analysis, charts, graphs and recommendations must be submitted to Dr. Jenkins for approval prior to the final report.
- The vendor must be available to present the results of the survey and the report to the State Board of Education.

1.502 FINAL ACCEPTANCE

Final acceptance means that the contractor must be available to present the results of the survey and the report to the State Board of Education.

State shall pay Contractor an amount not to exceed sixty thousand dollars (\$60,000) [specify maximum dollar amount] for the performance of all activities necessary for or incidental to the performance of work as set forth in this SOW. Authorized Services and Price List as follows:

Within ten (10) days following receipt of written notice from the State relating to any claim, Contractor shall notify the State in writing whether Contractor agrees to assume control of the defense and settlement of that claim (a "Notice of Election"). After notifying Contractor of a claim and prior to the State receiving Contractor's Notice of Election, the State shall be entitled to defend against the claim, at Contractor's expense, and Contractor will be responsible for any reasonable costs incurred by the State in defending against the claim during such period.

Notwithstanding the foregoing, the State may retain control of the defense and settlement of a claim by written notice to Contractor given within ten (10) days after the State's receipt of Contractor's information requested by the State pursuant to clause (ii) of this paragraph if the State determines that Contractor has failed to demonstrate to the reasonable satisfaction of the State Contractor's financial ability to carry out its defense and indemnity obligations under this Section. Any litigation activity on behalf of the State of Michigan, or any of its subdivisions pursuant to this Section, must be coordinated with the Department of Attorney General. In the event the insurer's attorney represents the State pursuant to this Section, the insurer's attorney may be required to be designated as a Special Assistant Attorney General by the Attorney General of the State of Michigan.
- (c) If Contractor does not deliver a Notice of Election relating to any claim of which it is notified by the State as provided above, the State shall have the right to defend the claim in such manner as it may deem appropriate, at the cost and expense of Contractor. If it is determined that the claim was one against which Contractor was required to indemnify the State, upon request of the State, Contractor shall promptly reimburse the State for all such reasonable costs and expenses.

If the State determines in its sole discretion that contracting with a bidder presents an unacceptable risk to the State, the State reserves the right to not award a contract to that bidder.

3. Additional Steps. The State may elect to engage in either of the following steps with vendors that meet the minimum point threshold.
- (a) **Pricing Negotiations** - If it is determined to be in the best interest of the State, the State may enter into negotiations with vendors on pricing only. No modification to the technical requirements or specifications will be allowed. If technical requirement or specification changes are required, the BAFO process as described below will be used.
 - (b) **Best And Final Offer (BAFO)** - If the selection process described in the ITB does not lead to a viable award recommendation, or significant deficiencies are identified, the Buyer and/or the JEC (Joint Evaluation Committee) at its discretion may prepare a Deficiency Report and Clarification Request (DR/CR) for each proposal determined to be in the competitive range. Bidders will be allowed to respond in writing to the (DR/CR) with a Best and Final Offer (BAFO). The BAFO may include any changes to the original proposal to address the listed deficiencies, including alterations to the original cost proposal to address correction of such deficiencies. The Best and Final Offers must be submitted by the deadline established by Acquisition Services.

After reviewing the Best and Final Offers, the JEC will re-evaluate the proposals using the original evaluation method. If an alteration to the originally published evaluation criteria is to be made, such changes in the criteria will be published to all bidders as part of the issuance of the DR/CR's.

Bidders will NOT be provided any information about other proposals or prices, or where the bidder stands in relation to others at any time during the evaluation process. Any request for such information will be viewed as a compromise to the stated evaluation process and the requesting bidder may be eliminated from further consideration. Successful requests for proposal information by a bidder, its subcontractor, or an affiliated party before contract award may also result in disqualification.

Bidders are cautioned to propose their best possible offers at the outset of the process, as there is no guarantee that any proposal will be allowed an opportunity to submit a Best and Final Offer.

4. Award Decision.
- (a) Best Value/Lowest Price. The award recommendation will be made to the responsive and responsible bidder who offers the best value to the State of Michigan. Best value will be determined by the bidder meeting the minimum point threshold and offering the lowest price, as demonstrated by their proposal.
 - (b) The State reserves the right to consider total cost of ownership factors in the final award recommendation (i.e. transition costs, training costs, etc.).
 - (c) The State reserves the right to award by item, part or portion of an item, group of items or total proposal, to reject any and all proposals in whole or in part, if, in the Director of Acquisition Services' judgment, the best interest of the State will be so served.

 - (e) Thereafter, award recommendation will be made to the Director of Acquisition Services.
