

21 to Buy, Not Supply

(Music) Happy Birthday! You just turned 21. You can now legally buy alcohol. But, if you're thinking of buying a beer for that friend that is still underage, think again. Twenty-one means that you are legal to buy, not supply. It could cost you a thousand bucks in fines and up to 100 days in jail. And the physical cost is even higher: emergency room visits, traffic crashes, violent crime, and more. Remember 21, may be old enough to buy, but don't supply.

A public service message from the Michigan Liquor Control Commission.
