CORRIDOR STUDY RECOMMENDATIONS AND IMPLEMENTING PROVISIONS OF THE ACT 425 AGREEMENT

- ***Corridor Study Recommendations***: Building size and design should respect the dominant shape and form of surrounding structures. Excessive duplication [e.g., a bunch of "box" stores], however, should be avoided. **Tab K** at p. 12.

  - ***Implementing Provisions of Act 425 Agreement***:

    >> *See* §422.3(d)(1) of Haring Zoning Ordinance (**Tab A**):

    > "All proposed commercial buildings shall utilize quality architecture to ensure a building is compatible with surrounding uses, protects the investment of adjacent landowners, blends harmoniously with the natural features and promotes a high quality image to those living in and traveling through the Township."

    >> *See* §422.3(d)(3)(ii) of Haring Zoning Ordinance (*id.*):

    > "Commercial buildings shall be consistent with the scale and proportion of existing structures in the surrounding area."

- ***Corridor Study Recommendations***: Plain, pole-type metal buildings should be avoided. The use of windows and other forms of façade openings and embellishments should generally be encouraged. The avoidance, blocking, or elimination of windows or other façade treatment resulting in large, stark-like, walls [e.g., "box" stores] facing roadways should generally be discouraged. **Tab K** at p. 13

  - ***Implementing Provisions of Act 425 Agreement***:

    >> *See* §422.3(d)(3)(iii)-(xii) of Haring Zoning Ordinance (**Tab A**):

    > "iii) For commercial buildings, a minimum of eighty percent (80%) of the exterior finish material of all front building facades (excluding the roof) visible from the public street, private street, parking lot or adjacent residentially zoned land, exclusive of window areas, shall consist of facing brick, cut stone, split face block, fluted block, scored block, native, field stone, cast stone or wood with an opaque or semi-transparent stain, or bleaching oil. Any other block or building material not specifically listed may be reviewed and approved by the Planning Commission if the material is compatible with surrounding uses, protects the investment of adjacent landowners, blends harmoniously with the natural features and promotes a high quality image to those living in and traveling through the Township.

"iv) Exterior Insulation and Finishing Systems (EIFS) material shall not be the primary building material. The remaining maximum twenty (20) percent of the facade may utilize other material for architectural detailing such as fiberglass reinforced concrete, polymer plastic (fypon) or EIFS. The Planning Commission may permit other materials for facades not visible from a public street that are adequately screened from adjoining land uses.

"v) Front building facades for commercial buildings shall provide a minimum 15% glass window but shall not exceed 80% glass. Calculations are exclusive of the roof area. The Planning Commission may allow a lower percentage of glass windows where it has been demonstrated that industry-recognized safety or security practices for the use being proposed mandate a lower percentage of glass windows.

"vi) Building materials and colors shall be related to and harmonious with the surrounding area.

"vii) Roof shape and materials shall be architecturally compatible with adjacent buildings and enhance the predominant streetscape. Subtle colors shall be used for roofing material. Metal roofs shall only be permitted if compatible with the overall character of the building, and architectural elements are used to significantly reduce the roof mass when viewed from the street.

"viii) Commercial buildings shall provide architectural features, details, and ornaments such as archways, colonnades, cornices, peaked rooflines or towers.

"ix) Building walls (both commercial and residential) over 100 feet in length shall be broken up with items such as varying rooflines, varying building lines, recesses, projections, wall insets, arcades, windows, architectural accents, bands of complementary building materials and trees.

"x) Commercial building entrances shall utilize windows, canopies, and/or awnings, provide unity of scale, texture, and color and provide a sense of place.

* * *

xii) Commercial building rear facades shall be constructed to a finished quality that is comparable to the front facade where visible to a public street or residential district or use, but strict adherence to the percentage requirements for finish materials and window glass, as stated in subsections (iii) and (v), shall not be required. This subsection shall not apply to a building rear façade that is viewable

only from highway U.S.-131, and which is not otherwise viewable from a residential district or use."

- ***Corridor Study Recommendation***: Rooftop mechanical equipment should either be screened and/or positioned such that viability from off-site if either non-existent or limited. **Tab K** at p. 13.

  - ***Implementing Provision of Act 425 Agreement***:

    >> *See* §422.3(d)(3)(xi) of Haring Zoning Ordinance (**Tab A**):

    "Rooftop equipment shall be illustrated on the plans and shall be screened from view by parapet walls or other architectural elements that complement the overall building design."

- ***Corridor Study Recommendations***: Buildings should maintain frontage setbacks sufficient to accommodate appropriate landscape, pedestrian and vehicular circulation needs, and future improvement needs. Required front yards should be maintained as landscaped open space. Along US-131 in Clam Lake, and at M-55 in particular, there should be large setbacks to retain existing vegetation and open vistas. **Tab K** at p. 13.

  - ***Implementing Provisions of Act 425 Agreement***:

    >> *See* §422.3(e)(10)-(11) of Haring Zoning Ordinance (**Tab A**):

    "10) A minimum 35 foot greenbelt is required along state highways and other major thoroughfares (excluding highway U.S.-131), as measured from the edge of the highway or road right-of-way. Said greenbelt shall be landscaped and planted in accordance with Section 422.3(e)(6)(i)B and C, except for approved driveways.

    "11) Buildings shall be set back a minimum of 100 feet from the right-of-way for state highways and other major thoroughfares, excepting the highway U.S.-131 right-of-way."

    >> *See* §422.3(e)(2)-(3) of Haring Zoning Ordinance:

    "2) The overall design shall promote the impression of a natural landscape.

    "3) Landscaping shall be provided along walls to reduce the visual impact of building mass as viewed from the street."

- ***Corridor Study Recommendations***: Parking lots should be buffered by perimeter landscape. Large parking areas (i.e., in excess of 50 spaces) should be broken up with internal landscape areas. Greenbelts should be used to assist in directing traffic

by separating access and primary circulation drives from the actual parking areas. **Tab K** at p. 19.

- ***Implementing Provisions of Act 425 Agreement***:

>> *See* §422.3(e)(5) of Haring Zoning Ordinance (**Tab A**):

"1) Parking lots, or any parts thereof, which are located in the front yard or which are adjacent to or visible from within 20 feet of any public right-of-way (excepting the highway U.S.-131 right-of-way) shall have perimeter landscaping, between the parking lot and right-of-way, as follows:

"A. The perimeter landscaping shall include a landscaped area measuring at least ten feet in width.

"B. The landscaped area shall include at least one tree, measuring at least eight feet in height at the time of planting, for every 30 feet, or fraction thereof, of street frontage of the parking lot.

"C. The landscaped area shall also include a continuous screen, measuring at least thirty-six inches in height above the street grade, consisting of a hedge, berm, brick wall, or combination thereof. The Planning Commission may determine the location of the screen so that it does not cause a traffic hazard, vision obstruction or other hazard to public safety.

"ii) For parking lots of over 100 spaces or 30,000 square feet, the interior of the parking lot shall have one square foot of landscaped area for each 15 square feet of paved area. The following requirements shall apply to the interior landscaped areas:

"A. Traffic islands shall be located to improve traffic flow and views.

"B. Traffic islands shall have a minimum width of 18 feet and a minimum area of 150 square feet.

"C. Details on traffic islands shall be provided on the PUD site plan, including radii, dimensions, adjacent parking space depth, ground cover and any lighting or irrigation.

"D. There shall be at least one deciduous tree for each 150 square feet, or fraction thereof, of interior landscaped area. Around each tree, there shall be an open land area of at least 75 square feet, with a minimum diameter of four feet at the tree trunk."

Mr. Dale Rosser, Supervisor
Clam Lake Township
8809 E. M-115
Cadillac, MI 49601

Re: City's Acceptance to Meet Regarding 425 Concept

Dear Mr. Rosser: Dale,

Thank you for your letter dated April 18, 2013 (attached for reference), regarding wastewater contract negotiations for the Clam Lake Downtown Development Authority. Yesterday, May 6, 2013, was the first scheduled meeting of the Cadillac City Council since receipt of your letter suggesting that the Township and City discuss the concept of entering into an Act 425 agreement regarding the TeriDee property. The Cadillac City Council acted on your suggestion during its meeting by approving a motion to accept Clam Lake Township's offer to discuss a 425 Agreement for the TeriDee property, and also directed me to send a letter to the Township to confirm a date and time for those discussions.

With respect to potential meeting dates, we already have a date set up on May 15th at 10 am. However, I understand that our attorneys have a scheduling conflict for that day and time as they are both due in circuit court on another matter. Perhaps later that day may work for everyone?

Notwithstanding the Township's offer to discuss an Act 425 agreement with the City, it is disconcerting that the Township is simultaneously discussing such an agreement with Haring Township for the same area, and therefore it is probably best if the discussions between Clam Lake and Haring Townships regarding the establishment of an Act 425 agreement involving the TeriDee property were postponed pending discussion of Clam Lake's offer to the City.

Please contact me at your earliest opportunity.

Sincerely,

Marcus Peccia, City Manager
City of Cadillac

C:
Clam Lake Township Board Members
Cadillac City Council* & Attorney

New Search

Search results will contain corporations which were active in 1978 or filed after 1/1/1979; limited partnerships transferred to this agency from the county clerks on 1/1/1983 and limited partnerships filed with this office after 1/1/1983; limited liability companies filed with this office after 6/1/1993; railroad records transferred to this agency on 1/14/1994; name reservations and name registrations.

The new dynamic website is updated within minutes so Mich-Elf filings can be viewed after document is filed within 1 hour. Paper submitted documents that have been filed can be viewed within 48 hours after they are filed.

You will be able to view these records to determine agent, agent address, date of formation or qualification, and other general information about each entity.

Two or more corporations, limited partnerships, limited liability companies or other entities may assume the same name if in a joint venture or partnership, if the name is permissible for the entities involved. The assumed name certificate must list all entities which are using the same assumed name.

A type of 'Filing Pending' indicates a document was submitted with that name. Pending records remain on the system until two weeks after the document is filed or the file is closed. There is no detail to review for name reservations, name registrations or pending records.

Name reservations hold the name for a limited time for possible use by an entity . Name registrations are foreign profit corporations that are not doing business in Michigan and wish to register their name only. These registrations expire yearly unless renewed .

Charter Township of Haring
Robert Scarbrough, Township Supervisor
515 Bell Avenue
Cadillac, MI 49601

RE: Charter Township or Haring – Sewer Project

Dear Mr. Scarbrough:

You are authorized to proceed to bidding your projects on Rural Development's approved plans and specifications. Please advise this office when and where the bid opening will take place.

Submit to this office the following items as soon as they are available:

- Affidavits of Publication
- Complete set of bid tabulations
- Copy of the Board minutes authorizing acceptance of the bids and awarding of the contract, subject to Rural Development approval
- Engineer's Recommendation of Award

Please feel free to contact Blake Smith in the Traverse City Area Office if you have any questions.

Sincerely,

Susan Dennis
