

1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

Mobile equipment is used in most construction job sites today. Workers need to employ safe work practices while working with and around these powerful machines in order to not get caught in their deadly grasp. Construction sites are also near or within the roadways of public traffic. Work zone safety through communication to the public vehicle driver, work protocol, and planning is important to saving the lives of this growing workforce. This course provides knowledge of best practices, MIOSHA standards, and a brief overview of referenced 2005 Michigan Manual on Uniform Traffic Control Devices (MMUTCD) through a presentation, interactive instruction, practical exercises, and discussion with a knowledgeable instructor. This training session will provide attendees with job site hazard identification and evaluation knowledge. Mobile equipment safety topics include motor vehicles, material handling, and training requirements. Work zone safety topics include traffic control devices, signage, plans, and employee training. This is not a Michigan Department of Transportation (MDOT) MMUTCD Part 6 Temporary Traffic Control (TTC) training course.

Agenda

Demonstrate Mobile Equipment Hazard Management:

- ▶ Recognize Hazards of Mobile Equipment
- ▶ Identify MIOSHA Standards Regulating Mobile Equipment
- ▶ Explain Training Requirements for Workers
- ▶ Discuss Best Practices

Apply Temporary Traffic Control Plans for Work Zone Safety:

- ▶ Recognize Hazards of Working in Roadways
- ▶ Identify MIOSHA and MMUTCD Standards regulating Work Zone Safety
- ▶ Explain Training Requirements for Employees
- ▶ Describe Temporary Traffic Control Plans

This course has been approved for both residential builders pre-licensure and continuing safety training requirements.

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

New

MIOSHA Education Training Materials Have Gone Electronic

MIOSHA Training Institute (MTI) has changed the delivery of its printed education materials to an electronic format.

The student training manual and course reference materials will be provided in electronic format via email for students to download and print before class if they wish.

No hard copy textbook will be provided at the class. Upon arrival at class, each student will also receive a flash drive containing these materials which is theirs to keep. If you wish to bring a copy to class, you have the option to **download and/or print** the course materials in advance.

Important: When registering for this class, please provide your complete email address.

Remember to download your course handouts ahead of time!

Frequently Asked Questions

Q: Will I be able to print my materials at the seminar or workshop?

A: No printing services will be available. Print or download the presentation slides before you arrive for the class.

Q: What electronic format will the handouts be in?

A: All materials will be available as PDF documents.

Q: Will I be able to charge my device at the seminar or workshop?

A: We recommend that your device is fully charged before you arrive. Charging stations may not be available in the classroom.

Q: What happens if I do not receive an email?

A: In the unlikely event that you do not receive the link via email, please call the contact number listed on the next page for assistance.

Facilitator

Steve Tighe was appointed to the MIOSHA Consultation Education & Training (CET) Division in 2012 and provides construction safety services for the counties of Michigan's Upper Peninsula. Steve has 11 years' experience managing a surveying/engineering company and two years' experience as a project manager for general contractors in heavy civil site development and the construction of airports/correctional facilities across the country. Steve has a unique understanding of safety both in the prevention and treatment of worksite accidents as he has been a licensed paramedic in Michigan for over 19 years.

Steve graduated with a Bachelor of Science Degree in Construction Management from Eastern Michigan University in 2010. He has the knowledge and ability to relate to management and workers on the challenges of safety within the construction industry while developing productivity and motivation. Steve will provide training and consultation to assist companies in developing positive and proactive safety programs.

Steve Tighe
Construction Safety Consultant
MIOSHA, CET Division
