

## An Informative Full-Day Seminar:

# Parts 6, 33, & 433 Personal Protective Equipment Standards for General Industry & Construction

## 1 Who Should Attend . . .

This seminar is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

## 2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TEC<sup>SM</sup> facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at [www.michigan.gov/mti](http://www.michigan.gov/mti).

## 3 What You'll Learn . . .

This course will provide the participant an overview of MIOSHA personal protective equipment (PPE) requirements contained in MIOSHA General Industry Parts 33 and 433, as well as MIOSHA Construction Part 6. Methods for conducting and documenting hazard surveys, PPE selection and maintenance criteria, and PPE training requirements are described. Sample PPE photos and scenarios will be included and discussed in the program. Tools for PPE hazard surveys will be provided to assist students in conducting and documenting hazard surveys in the workplace.

### Agenda

*We offer a flexible program agenda to emphasize the health & safety topics you want most.*

#### Participants will be able to:

- ▶ Differentiate between the MIOSHA construction, general industry and occupational health standards for personal protective equipment (PPE).
- ▶ Perform and document a simple PPE hazard survey.
- ▶ Provide PPE training according to the MIOSHA Standards.
- ▶ Discuss how to select and use the appropriate PPE in the workplace.
- ▶ Analyze some hazards found in the workplace.

***This course has been approved for both residential builders pre-licensure and continuing safety training requirements.***

All meetings are accessible and barrier free. Please contact the cosponsor or the CET Division, at least 30 days in advance, to request necessary accommodations.

# Facilitator

Brian Kellogg joined the MIOSHA Consultation Education Training Division in 2010 as a Safety Consultant specializing in general industry and serves the employers/employees in the mid-Michigan area.

Prior to joining MIOSHA he was the Environmental Health and Safety Manager for an industrial air-moving equipment manufacturer with facilities located in Ohio and Indiana. Brian has experience with safety and environmental compliance in fiberglass, fabrication, welding, machine shop, foundry, paint, and assembly operations. He also spent time as an industrial equipment and machine operator. During his years in private industry Brian developed relationships with local first responder agencies, represented his employer in complaints with OSHA, and defended against citations from state and federal EPA.

Brian earned his Bachelor's degree in Environmental Science from Alaska Pacific University in 2002. Throughout his educational experiences, Brian spent time working with Alaska's marine wildlife and participated in research connected to the Exxon Valdez oil spill.

Presenters: Brian Kellogg and Anthony Neroni, Senior Occupational Safety Consultants; and Curtis Johnson, Senior Industrial Hygienist; MIOSHA, CET Division
