

## **Cobo Convention Center Capital Improvement Program Detroit Regional Convention Facility Authority**

Partnership Signing: April 9, 2013

As of March 31, 2014 this project has logged 1,109,958 hours.

Phase III of the **Cobo Convention Center Capital Improvement Program** is the final phase of a program that started in 2010 and is scheduled to be completed in 2015. Phase III of the program is the most capital intense phase and includes the development of a new 38,000 sq. ft. ballroom and meeting rooms in the former sports and concert arena. In addition, there will be a new atrium connecting the main concourse to the lower river level and other improvements.

**Guardrails Installed**

**Guarding and Fall Protection**

**Lifts instead of Ladders**

### **Best Practices/Innovations:**

- 100% Personal Protective Equipment (PPE) including: hard hats, protective safety glasses, high visibility vests, and appropriate work footwear.
- Mandatory attendance to a project orientation and a project safety video.
- All crane operators will be Certified Crane Operators.
- Mandatory post-accident substance abuse testing.
- Pre-Task Analysis.
- Uniformly enforced Disciplinary Action Plan.
- Weekly tool box talks.
