

## **Grand Valley State University Biology Lab & Market Place Pioneer Construction Company**

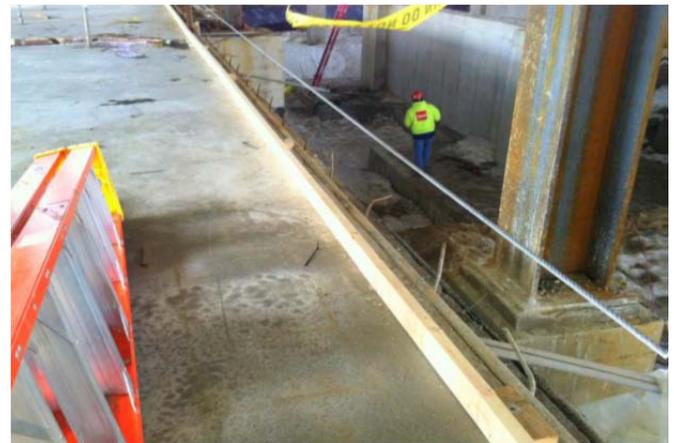

Partnership Signing: September 7, 2013

As of March 31, 2015 this project has logged 274,635 hours and has gone 656 days without a lost time injury.

The Grand Valley State University Science Lab, Classroom, and Office Building project consists of 150,500 +/- square feet of laboratory, academic, faculty office suites, and study areas. Grand Valley State University is seeking LEED silver certification for the new building. The overall project construction budget is \$44.0M. The project start date is slated for April 29, 2013 with a construction completion date of June 2015 and building occupancy July 2015.

**Guardrail systems built around ladder access areas**

**Installing toe boards to prevent falling objects on workers below**

### **Innovative Best Practices/Safety Initiatives:**

- New Worker Safety Orientations.
- Pre-task Analysis.
- OSHA/Pioneer 10-Hour training certification for all workers.
- 100% fall protection above 6' for all trades, regardless of work operation taking place, or working on scaffolding.
- 100% glove use to reduce hand injury.
