The Precision Metalforming Association (PMA) and the Michigan Occupational Safety and Health Administration (MIOSHA) recognize the value of establishing a collaborative relationship to promote the dialogue for improving safety and health conditions within the metal forming industry in Michigan. In developing this Alliance, MIOSHA and PMA recognize that MIOSHA's Consultation, Education and Training (CET) Division is an integral part of this effort. To that end, MIOSHA and PMA hereby form an Alliance to provide stakeholders and others with:

- Information, guidance and access to training resources that will help them protect the health and safety of workers,
- Reducing and preventing exposure to workplace hazards,
- Understand the rights of workers and the responsibilities of employers under the Michigan Occupational Safety and Health Act (MIOSH Act).

Areas of Emphasis:

PMA is a full-service trade association representing the metalforming industry of North America – the industry that creates precision metal products using stamping, fabricating, spinning, slide forming and roll forming technologies, and other value-added processes. Its nearly 900 member companies also include suppliers of equipment, materials and services to the industry.
