- 82 regulatory considerations
- 8 consent order and stipulations were rejected with counter-offers approved as follows:
 - Four counter-offers for one year of probation with employer reports.
 - One counter-offer with one year of probation; employer reports; and continuing education.
 - One counter-offer with one year of probation; continuing education; and an additional fine.
 - One counter-offer to suspend the licensee for a minimum of one day until compliant with the HPRP; two years of probation; and employer reports.
 - One counter-offer to revoke the license with a fine assessed in the amount of \$10,000.00, payable prior to reinstatement.

Rules Committee

Barr explained that the rules will need to be revised to include the new requirement for training in recognizing the signs of human trafficking. Further, noting the positive results from the National Council on State Boards of Nursing (NCSBN) report on the effectiveness of the use of simulation, the Education Committee will make recommendations to the Rules Committee for rule amendments that would allow a specified percentage of simulation to be utilized in nurse education programs. Hopper stressed the importance of adopting nationally recognized standards that will ensure best practices are used when simulation is utilized.

Education Committee

Hopper announced that one nurse had completed the first Jackson College refresher course, and she provided feedback on the efficacy of the program.

Hopper directed the Board to the Education Committee LPN Report and provided a verbal highlight of same. See Addendum #1.

MOTION by Hopper, seconded by Bouchard-Wyant, to accept the following motion presented by the Education Committee:

Motion #1 by the committee to approve the LPN program decision for Alpena Community College, Bay de Noc Community College, Delta College, Everest Institute Grand Rapids, Everest Institute Southfield, Lansing Community College, Latoya's Health Education, Northern Michigan University, and St. Clair County Community College.

A voice vote followed.

STATE OF MICHIGAN
DEPARTMENT OF COMMUNITY HEALTH
LANSING

NICK LYON
DIRECTOR

DATE: January 08, 2015
FROM: Deborah Bach-Stante, Director, Office of Nursing Policy

RE: DCH – Office of Nursing Policy Report

The Michigan Department of Community Health (DCH) Office of Nursing Policy (ONP) has been busy working on behalf of nurses in the state of Michigan. As funding for the office comes from the Nurse Professional Fund, you will notice that this report is structured to depict efforts in each category for which the Nurse Professional Fund may be allocated, with the exception of nursing scholarships, which are managed and allocated by LARA.

a) *To promote safe patient care in all nursing practice environments*, the Michigan Department of Community Health (MDCH), Office of Nursing Policy (ONP) has worked with MPHI to conduct focused groups of representatives nurse employers interested in developing Transition to Practice Simulation programs and resources for transition-to-practice in hospital systems, long term care, and community-based care (home care, public health, hospice care, and ambulatory care). These focus groups identified priorities for further education of transitioning and seasoned members of their nursing staff. A meeting of representatives of the various focus groups is being planned for this winter to review successful program models from other states.

b) *To advance the safe practice of the nursing profession*, the Michigan Department of Community Health (MDCH), Office of Nursing Policy (ONP) is planning a 2015 webinar on safe patient handling.

c) *To assure a continuous supply of high-quality direct care nurses, nursing faculty, and nurse education programs*, the ONP is collaborating with MPHI in the development of a survey to quantify clinical placements needs for pre-licensure and advanced practice nursing educational programs in Michigan.

The ONP is collecting profiles of psychiatric/mental health nurses for the ONP website.

ADDENDUM #4 DCH Report - 2013-14 Public Acts Update

HB 5839 (PA 410)-HB 5842 (PA413):

These public acts amend various provisions of the Public Health Code to do the following:

- Increase the types of violations by health care professionals that could result in revocation or permanent revocation including:
 - -engaging in a pattern of intentional fraudulent acts for personal gain and in so doing, harming patients under his or her care.
 - -certain assaultive crimes, including 1st- and 2nd degree murder, grounds for license or registration sanctions (including permanent revocation under certain circumstances).
- Specify that an individual whose license, registration, or authorization to engage in a health profession was permanently revoked under the Public Health Code is permanently ineligible for a license, registration, or authorization to engage in the practice of a health profession.
- Define "permanent revocation."

The bills take effect 90 days after enactment

SB 886 (PA 448): Enacts the "Continuing Care Community Disclosure Act" to provide for the regulation of continuing care communities, which would be retirement communities with a variety of possible levels of services. These could include a retirement community, a home for the aged, independent living, a nursing home, a home care agency, and a hospice.

Each of the services and facilities that could be part of a continuing care community is defined elsewhere in State statute and subject to various laws and regulations. The bill would create an umbrella organization, the continuing care community that would be responsible for the facilities and services. The continuing care community could be either a for-profit or a nonprofit entity and its purposes would be limited to ownership, organization, and operation of the facilities and services rendered.

The bill also would govern the offer and sale of continuing care agreements with potential residents. The bill would exempt a continuing care community from promulgated rules governing individual types of facilities if those rules would interfere with the ongoing delivery of care or the movement of a member between facilities in different licensure categories. A continuing care community could request variances from rules established by the Department of Human Services if such rules unnecessarily segregate members residing in adult foster care or homes for the aged from other residents.

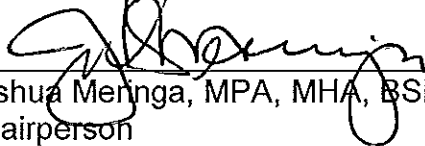

The bill also would require a continuing care community to register with the Department of Licensing and Regulatory Affairs (LARA).

ANNOUNCEMENTS

The next regularly scheduled meeting will be held March 5, 2015 at 9:00 a.m. at the Ottawa Building, 611 West Ottawa Street, Upper Level Conference Center, Conference Room 3, Lansing, Michigan.

ADJOURNMENT
