Mobile Report for MeL.org

Apple iPads make up approximately 21% of sessions. Apple iPhones (split almost equally between iPhone 6s and the 5 series) make up about 43% of mobile sessions. About 32% of our mobile phone users are Android users. Other devices make up a small minority of our users. Over time, we're seeing decreasing traffic from tablets and increasing traffic from phones. We conduct quarterly mobile evaluations and correct accordingly.
