

Michigan Commission on Law Enforcement Standards

LETTER OF UNDERSTANDING REGARDING CITIZENSHIP

I, _____ am currently not a citizen of the United States. I am requesting to continue with the basic police training academy at _____.

I understand that it is my sole responsibility to actively pursue and obtain U.S. Citizenship prior to meeting the conditions stated below.

I fully understand that one of the minimum standards to receive police certification in the State of Michigan is to be a United States citizen.

MCOLES policy states that an individual must take and pass the written licensing examination within one year from the date of the academy session end date. I understand that in order to sit for the licensing examination, I must have obtained my U.S. citizenship

I further understand that if I do not receive my citizenship within the time frame to sit for the written licensing examination, I will not be eligible to become a police officer in the State of Michigan and will need to repeat basic training.
