Reservation deadline is November 18, 2009. Hotels in the area available.

Dan "The Beast" Severn is making a commitment to train you in Ground Defense and Escapes for use on the field. Once classes and payment are complete, you will receive a certificate to train officers of your department the same defensive tactics Dan Severn showed you. This certificate is good for two years after the date of the class.

This innovate training will complement your scenario base training segments and will allow officers to understand the concepts and principles of being on the ground. This program was developed to help officers regardless of size to effectively escape from a position of disadvantage and follow through with other force options.

Along with training, the participant will receive an instructor manual including pictures of all techniques utilized in the program.
