This is your chance for certification as an instructor for the TASER X3, X26, XREP and the X12 less-lethal shotgun platform. As a TASER Instructor, you may certify law enforcement, correctional and military personnel as Certified Users of TASER devices. U.S. Law enforcement agencies currently using our technology have significantly reduced officer and suspect injuries in the line of duty.

If your department would like to attend, please complete the registration process on the Training Events page of our website, www.TASER.com.
