Career Choices – Certificate of Completion Programs

- General Maintenance Technician
- Auto Parts Specialist
- Suspension/Steering Technician
- Brake Technician
- Automotive Electrical Technician
- Engine Performance Technician
- HVAC Technician

Depending on skills, abilities, and interests, students can participate from 1-6 terms

Program Description

Along with established academic and hands-on training, MCTI's Automotive Technology Program operates like a small repair and auto parts business. All students are trained in basic shop practices and have experience working on vehicles. Students may train in the diagnosis and repair of brakes, suspensions, and electrical, heating/air conditioning, and engine performance systems, working toward state of Michigan and national (ASE) certifications. The program is based on the National Automotive Technicians Education Foundation (NATEF) competency standards. Students may also focus on the customer service side of the auto parts business. These students practice basic cataloging, inventory management and merchandizing skills. These students must complete a five (5) week work internship.

Job Outlook

Jobs for auto technicians are plentiful and students who complete the program are easily hired. Students can expect an entry-level wage of about \$7.40– \$12 per hour. Experienced mechanics with leadership ability may advance to shop foreman or become service managers.

Aptitude/Abilities

- Ability to communicate through oral/written formats
- Physically demanding, coordination, above average skill in working with one's hands, and the ability to get into awkward positions
