

CSHCS INFO #22-2012 - Huron billing letter
Wed 11/28/2012

From: Pendleton, Courtney (DCH)

Good morning. As I've done before, I found out about something great one of you are doing, and feel it should be shared with everyone. You may find something like this useful. Huron County Health Department has developed a letter to assist families who may be having billing issues. The Huron staff has given me permission to share with all of you (please see attached). Please feel free to develop something similar for your health department, if you think it would be useful.

If you or your health department have created or are using something that's really helped you and your families, please let Courtney Pendleton pendletonc@michigan.gov know. I'm happy to share great information!

Thanks!

Courtney Pendleton
