

CSHCS INFO #17-2013 (3) - Revised Who to call list
Tue 12/10/2013 1:25 PM

The information regarding billing problems have been made a little more explicit. The purpose of this change in language is to get the simpler billing problems resolved at the local or analyst level so that Pat can work on the time-consuming and complex billing issues. Thank you for your help with this.
