

CSHCS INFO #8-2013 - Enrollment of the Look Alike Population
Thu 3/28/2013 4:11 PM

Please do not respond to this email. Please contact Rebecca Start at STARTR@michigan.gov if you have any questions.

CSHCS enrollments for 3,525 Look Alikes (LALs) have been entered in the CSHCS and CHAMPS systems. CSHCS coverage begin date for this population is 4/1/13. The enrollment end dates are staggered to prevent all of them from renewing in the same month. The population includes 3,159 Medicaid Health Plan members and 366 clients with full Medicaid who are no longer enrolled in a MHP.

A file including the Name, ID, County and MHP name of these new CSHCS enrollees has been posted in the CSHCS system. Click 'LHD Forms Download' on the Main Menu. As you know, Medicaid eligibility and MHP enrollment status can quickly change. This report reflects status as of 3.22.13.

A modified Welcome letter was mailed to each client family this week (sample attached). LHDs should reach out to these new members in the same way that all new members are contacted by the LHD. Since most of these new CSHCS members are established MHP members, the MHPs may have care plans and other member information that will assist the LHD. MDCH continues to expect LHD and MHP communication and collaboration with regard to mutually served clients.

The MHP is the only authorized provider for the MHP members. During your contact with families of clients who are no longer in an MHP, please identify and advise us of the current sub-specialty providers that need to be authorized on the client file (CEN).

Finally, I am pleased to announce the closure of the Look Alike project. New client medical reports received 4.1.13 or later will no longer be screened for potential Look Alike status.

Please contact Rebecca Start if questions.
