

CSHCS INFO #4-2015 - Transition Webinar
Tue 2/10/2015 12:40 PM

Dear LHD Colleagues,

Let's Talk Transition was the first in the series of CSHCS transition webinars. The webinar provided an update for LHD staff on the current national guidelines addressing Transition for CYSHCN. We discussed a proposed timeline for Transition and the importance of youth and parent partnership in the transition process. Here is a link to view a recording of the webinar: Let's Talk Transition! (<http://breeze.mdch.train.org/transition1/>)

In addition, we hope all LHD CSHCS staff will take 3-5 minutes to complete a brief survey to gather your views on how our state office can best help support your efforts around transition. Survey responses will go directly to Sarah Clark at the University of Michigan's Child Health Evaluation and Research (CHEAR) Unit. Sarah will prepare a summary report for us, which will not identify individual LHDs or staff members—so please be candid! The survey can be found at: https://qtrial2014az1.az1.qualtrics.com/SE/?SID=SV_6JwstrFsZJ12fqt

Please contact Linda Fletcher if you have any questions.
