

SUBSTANCE ABUSE ENCOUNTER REPORTING: HCPCS and Revenue Codes

Overview of Updates for Fiscal Year 2008

This encounter code and modifier chart, effective 10/1/2007, describes how submitted encounter codes and modifiers will be interpreted by MDCH and its actuarial team. Much of this remains the same as it was for FY2007. A summary of the changes and additions for FY2008 follows:

A list of 11 modifiers is included on the last page of the coding chart. These modifiers can be used in combination with any of the HCPCS codes. "HD" is required for all qualified Women's Specialty Services. "HH" is required for qualifying Integrated Substance Abuse/Mental Health Services.

The AMS initial screening functions will be reported with an H0002 code only if done face-to-face. Otherwise, the newly available code of H0049 (Screening for Appropriateness for Treatment) can be utilized for either in-person or over-the-phone screens.

Coding options for Sub-acute Detoxification Services have expanded from one allowable code to three separate codes based on ASAM level: H0010 (Medically Monitored III.7-D); H0012 (Clinically Managed III.2-D); and H0014 (Ambulatory without Extended Monitoring II.D.).

The HCPCS Code of H0022 will now designate Early Intervention Services.

The HCPCS Code of T1012 will now designate Recovery Support Services.

Residential Room and Board will be reported under the S9976 per diem code.

A selection of non-emergency Transportation HCPCS codes (T2001 through T2005, S0215, A0100, A0110) have been added to the chart.

The T1009 code for Child Sitting Services has been added to the chart to allow CAs to report child care service encounter under qualified Women's Specialty Services.
