Toolkit electronic Table of Contents can be found at <http://www.michigan.gov/genomics>
 Scroll to the table. Second item in the first column;
 Birth Defects and Genetic Conditions: Resources for Michigan Families and
 Professionals (Toolkit).

Please check your kits to see if you need the updated materials. If you received your toolkit after the date of the update, your kit probably already contains the update. Hyperlinks to the updated material are included when possible. You may download the updates yourself or request the materials from the Birth Defects Follow-up Program:

BDRFollowup@michigan.gov Or call toll-free 1-866-852-1247
