

## CHAMPS Enhancement to User List Page

Effective January 25, 2010 an enhancement was implemented to update the User List Page in CHAMPS. Previously, when Domain Administrators would first access the User List page, the users for the domain would automatically be listed on the screen. Now when the User List page is accessed, the page will initially come up blank and show “No Records Found!”

The screenshot displays the CHAMPS application interface within a Microsoft Internet Explorer browser window. The browser title is "Welcome to MMIS - Microsoft Internet Explorer". The application header includes the CHAMPS logo and a navigation menu with tabs: My Inbox, Admin, Provider, Claims, Reference, Member, TPL, Rate Setting, PA, and Contract/MC. Below the menu, a welcome message reads: "Welcome Provider, Test. You have logged-in with [redacted] domain and Domain Administrator profile." The breadcrumb path is "Path: MyInbox/ UserList/ Provider Portal/ UserList".

The main content area is titled "Manage Users:" and features a "Filter By:" section with dropdown menus and a "Go" button. Below this is a table with the following headers: Name, Domain Name, Organization, Status, Start Date, and Expiration Date. The table body is currently empty, and the text "No Records Found!" is displayed in red, circled in red. The footer of the application shows "Page ID: pgUserList(Admin)", "Environment: PRODUCTION (Server: wpw005.80 - Build: V2.0 - 2.3)", and "Server Time: 01/27/2010 03:23:01 EST". The browser status bar at the bottom shows "Done" and "Trusted sites".

The Domain Administrators are now required to use the available filters in order for a list of users to show. If the administrator would like to see all users in the domain, select Filter By “Domain Name” and enter a “%” in the criteria box and click “Go.”

The screenshot shows the MMIS web application interface. At the top, there is a navigation menu with tabs for My Inbox, Admin, Provider, Claims, Reference, Member, TPL, Rate Setting, PA, and Contract/MC. Below the navigation is a welcome message: "Welcome Provider, Test. You have logged-in with [redacted] domain and Domain Administrator profile." The path is shown as "Path: MyInbox/UserList/ Provider Portal/ UserList".

The "Manage Users:" section is highlighted with a red circle. It contains a "Filter By:" dropdown menu set to "Domain Name" and a criteria input box containing "%". To the right of the criteria box is an "And:" dropdown menu and a "Go" button.

Below the filter section is a table with the following columns: Name, Domain Name, Organization, Status, Start Date, and Expiration Date. The table is currently empty, displaying "No Records Found!" in red text.

At the bottom of the page, there is a footer with the following information: Page ID: pgUserList(Admin), Environment: PRODUCTION (Server: wpw005.80 - Build: V2.0 - 2.3), and Server Time: 01/27/2010 03:34:43 EST.
