SUBJECT: Regional Map

Attached is the regional map that will be used in the upcoming Application for Participation for Managed Specialty Supports and Services. We have decided to use the map as presented by MACMHB on October 18, 2012. We are very grateful for the input and effort that went into creation of this map. These will be the PIHP regions through which we will contract to provide Medicaid funded mental health, substance use disorder, and developmental disabilities supports and services.

I want to thank both MACMHB and MASACA for the robust dialogue that has taken place over these past six plus months. We have spent a great deal of time and energy discussing the values upon which integrated care systems should be built, toward the most efficient, effective and person-centered system possible.

Again, I want to thank you for the careful consideration, thoughtful dialogue and feedback provided along the way by both associations. We wish to express special appreciation to the CMHSPs and MACMHB for providing this map, which truly reflects the strength of local and state collaboration.
