Key:

No valid estimates (<50 rounded to 0 - See Note 2 below).

Notes:

- 1) Estimates were calculated by applying state-level diabetes prevalence (Source: Michigan BRFSS, 2002-2004 three-year averages) to Michigan's 2004 population (Source: MI Office of the Demographer).
- 2) All estimates rounded to the nearest 100.
- 3) Sum of estimated number of persons with diabetes in each county do not sum to the total estimated number of persons with diabetes in the state due to effects of rounding.
- 4) Sum of estimated number of persons with diabetes in each DON do not sum to the total estimated number of persons with diabetes in the state due to effects of rounding.
- 5) Diabetes Prevalence Estimates, by Race, Sex, and Age presented in Figure 1 of 'Diabetes in Michigan, 2006 Fact Sheets'.
