

An aerial photograph of a forested area, likely a park or natural reserve. The image shows a dense green forest with a winding road or path cutting through it. A large body of water is visible in the lower right quadrant. The overall scene is a mix of green and brown tones, suggesting a natural, somewhat rugged environment.

***Topics for Training  
Providers***

# ***Training Provider Enforcement Actions 2011***

- 7 courses audited in last 12 months**
- 2 training providers cited**
- 2 citations and 1 notice of non-compliance**
- All enforcement actions involved  
insufficient time of training**

An aerial photograph of a forested area. A road runs horizontally across the middle of the image, and a stream flows vertically through the center. The forest is dense and green, with some areas appearing lighter, possibly due to thinning or different tree species. The overall scene is a natural landscape with human infrastructure.

## *Training Trends*

**Certification numbers still rising**

An aerial photograph of a forested area. A road or path runs vertically through the center, and a stream or river flows horizontally across the lower middle. The trees are dense and green, with some lighter patches indicating cleared areas or different tree species.

## *Training Trends*

**Certification numbers still rising**

**Why?**

# *Training Trends*

**Certification numbers still rising**

- NSP 2 and 3 (Neighborhood Stabilization Plan)**
- RRP (Renovation, Repair, and Painting)**
- DWEJ (Detroiters Working for Environmental Justice) and other similar organizations**
- Funding Source Requirement**
- Detroit Lead Ordinance for Rental Properties**

# *Training Trends*

## Forecasting the Certification Future

- Eventually the government will stop giving money away
- DWEJ trains many, but few find work in lead, so few will renew
- Detroit Lead Ordinance not the “Pot of Gold” many thought it would be

An aerial photograph of a forest with a light-colored path or road winding through the trees. The trees are green and dense, and the path is a mix of light brown and white, possibly due to snow or a different type of ground cover.

## *Training Trends*

### **Forecasting the Certification Future**

**So the forecast is that certification numbers will plateau over the next couple of years,**

An aerial photograph of a forest with a path, serving as a background for the text.

## *Training Trends*

### **Forecasting the Certification Future**

**So the forecast is that certification numbers will plateau over the next couple of years,**

***but...***

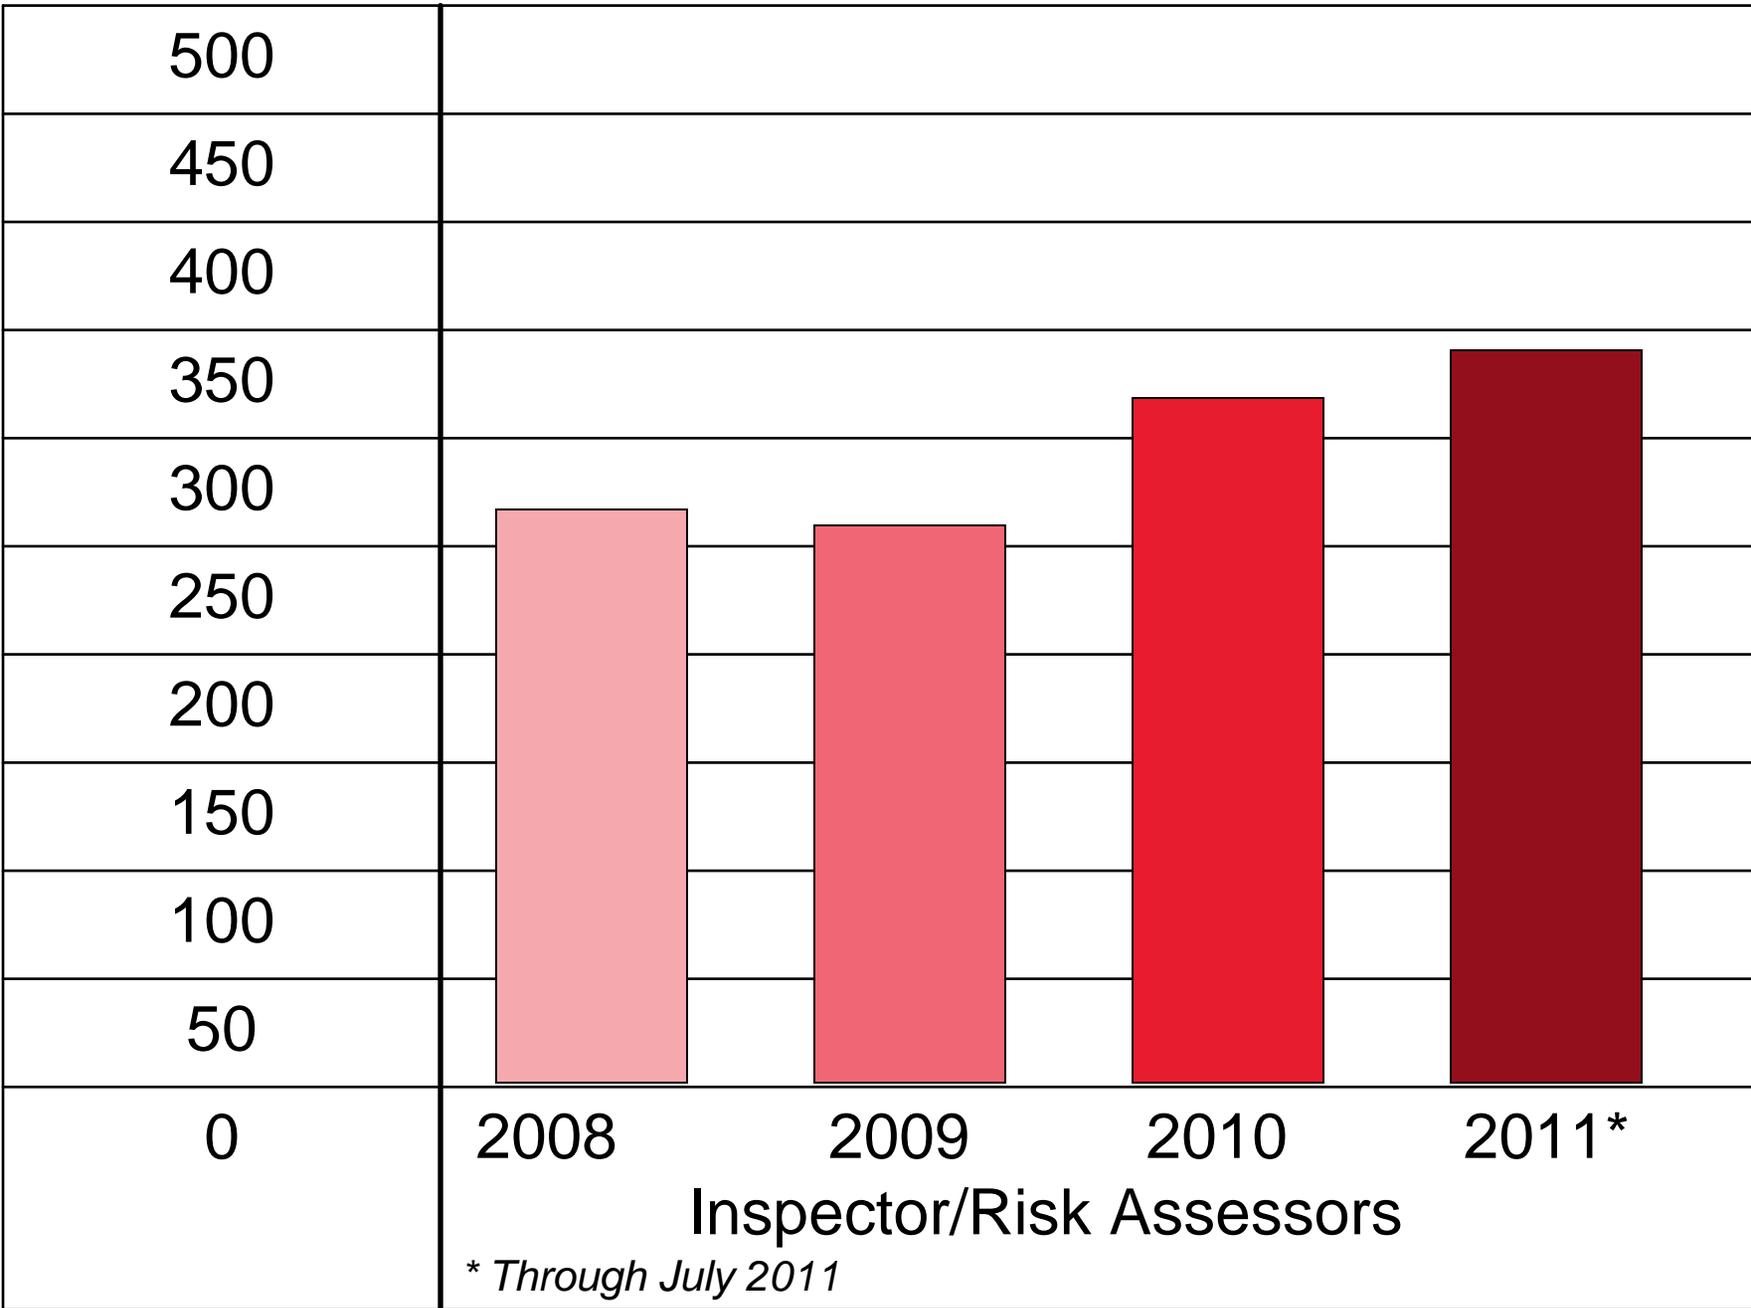

# *Training Trends*

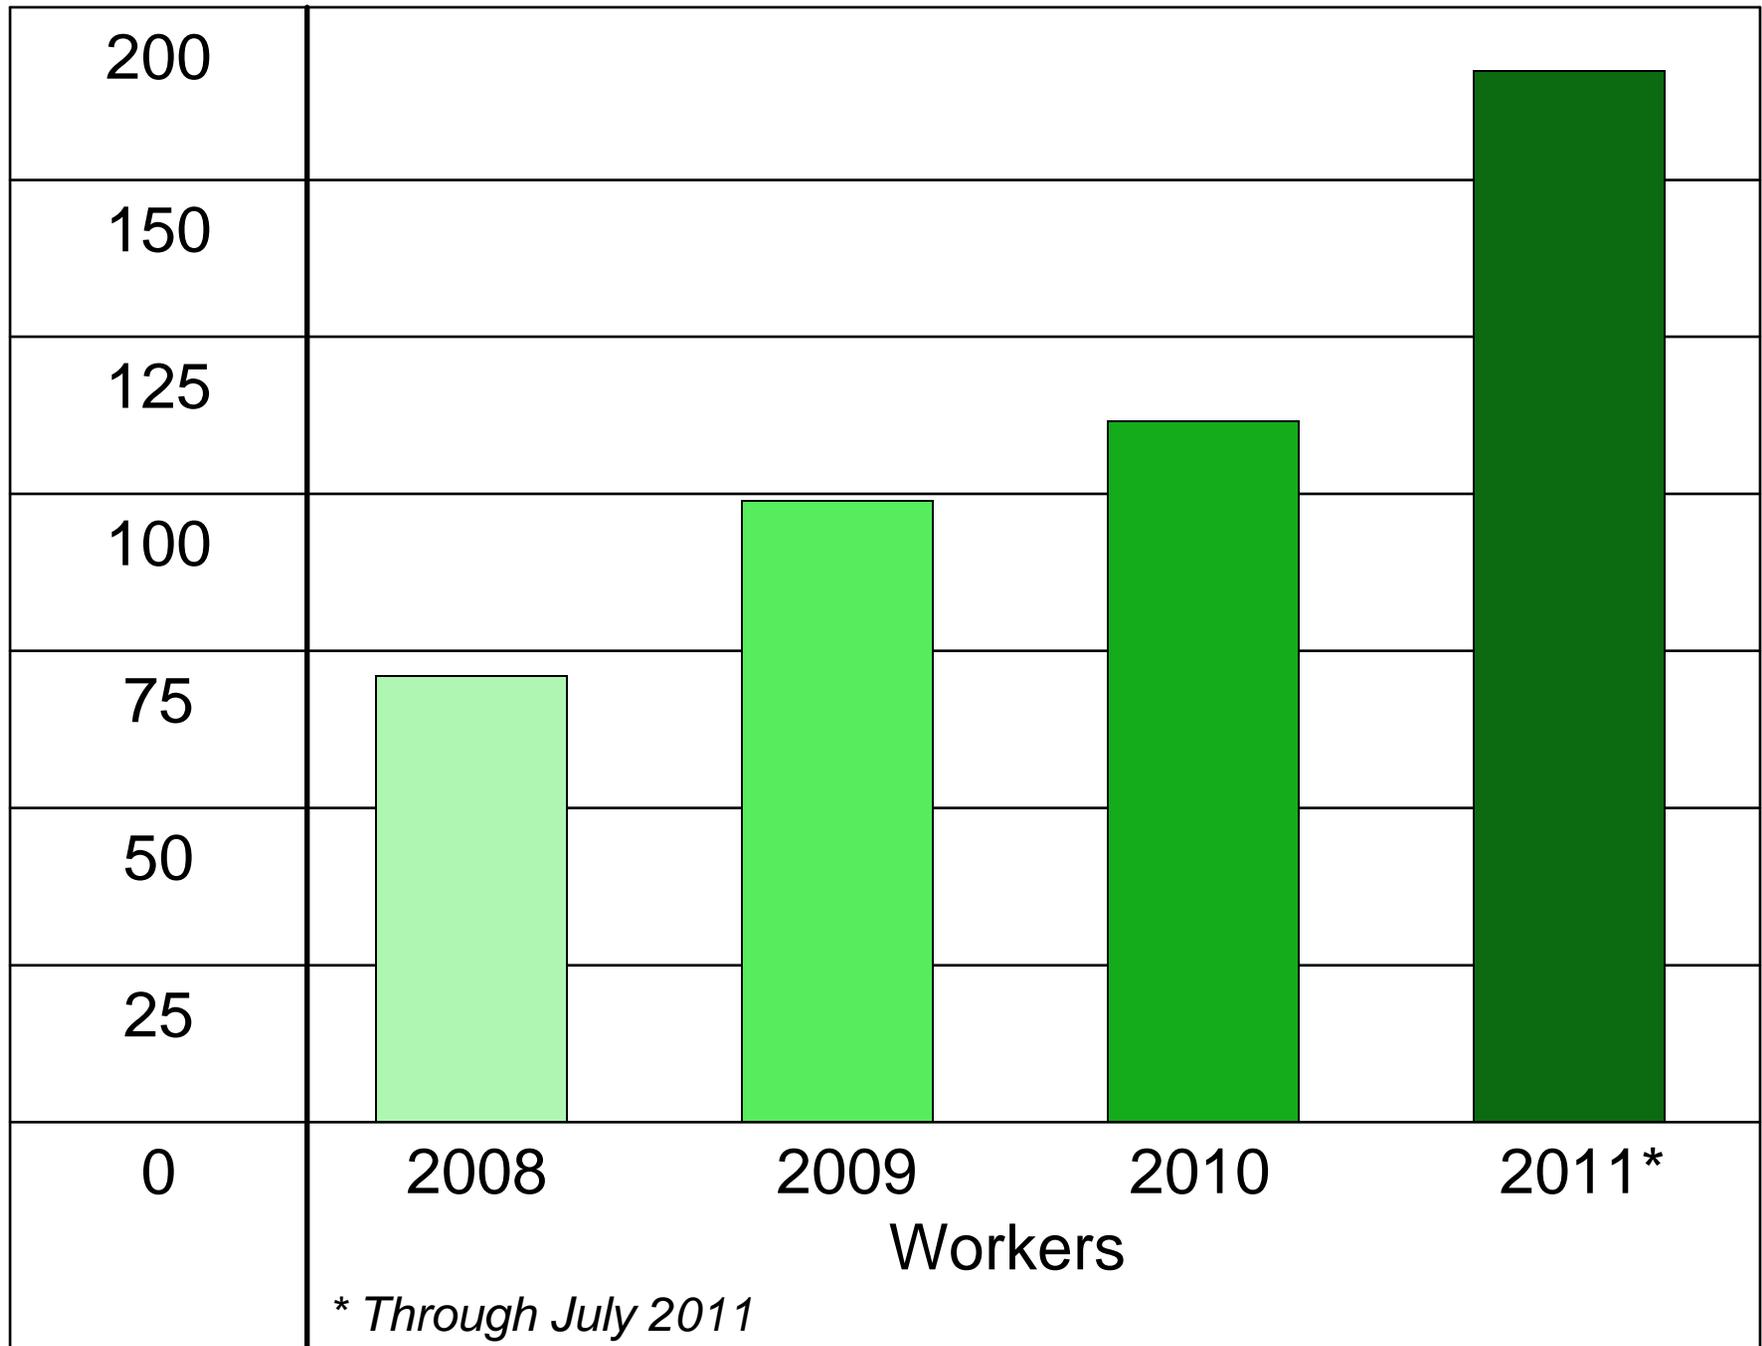

## Forecasting the Certification Future

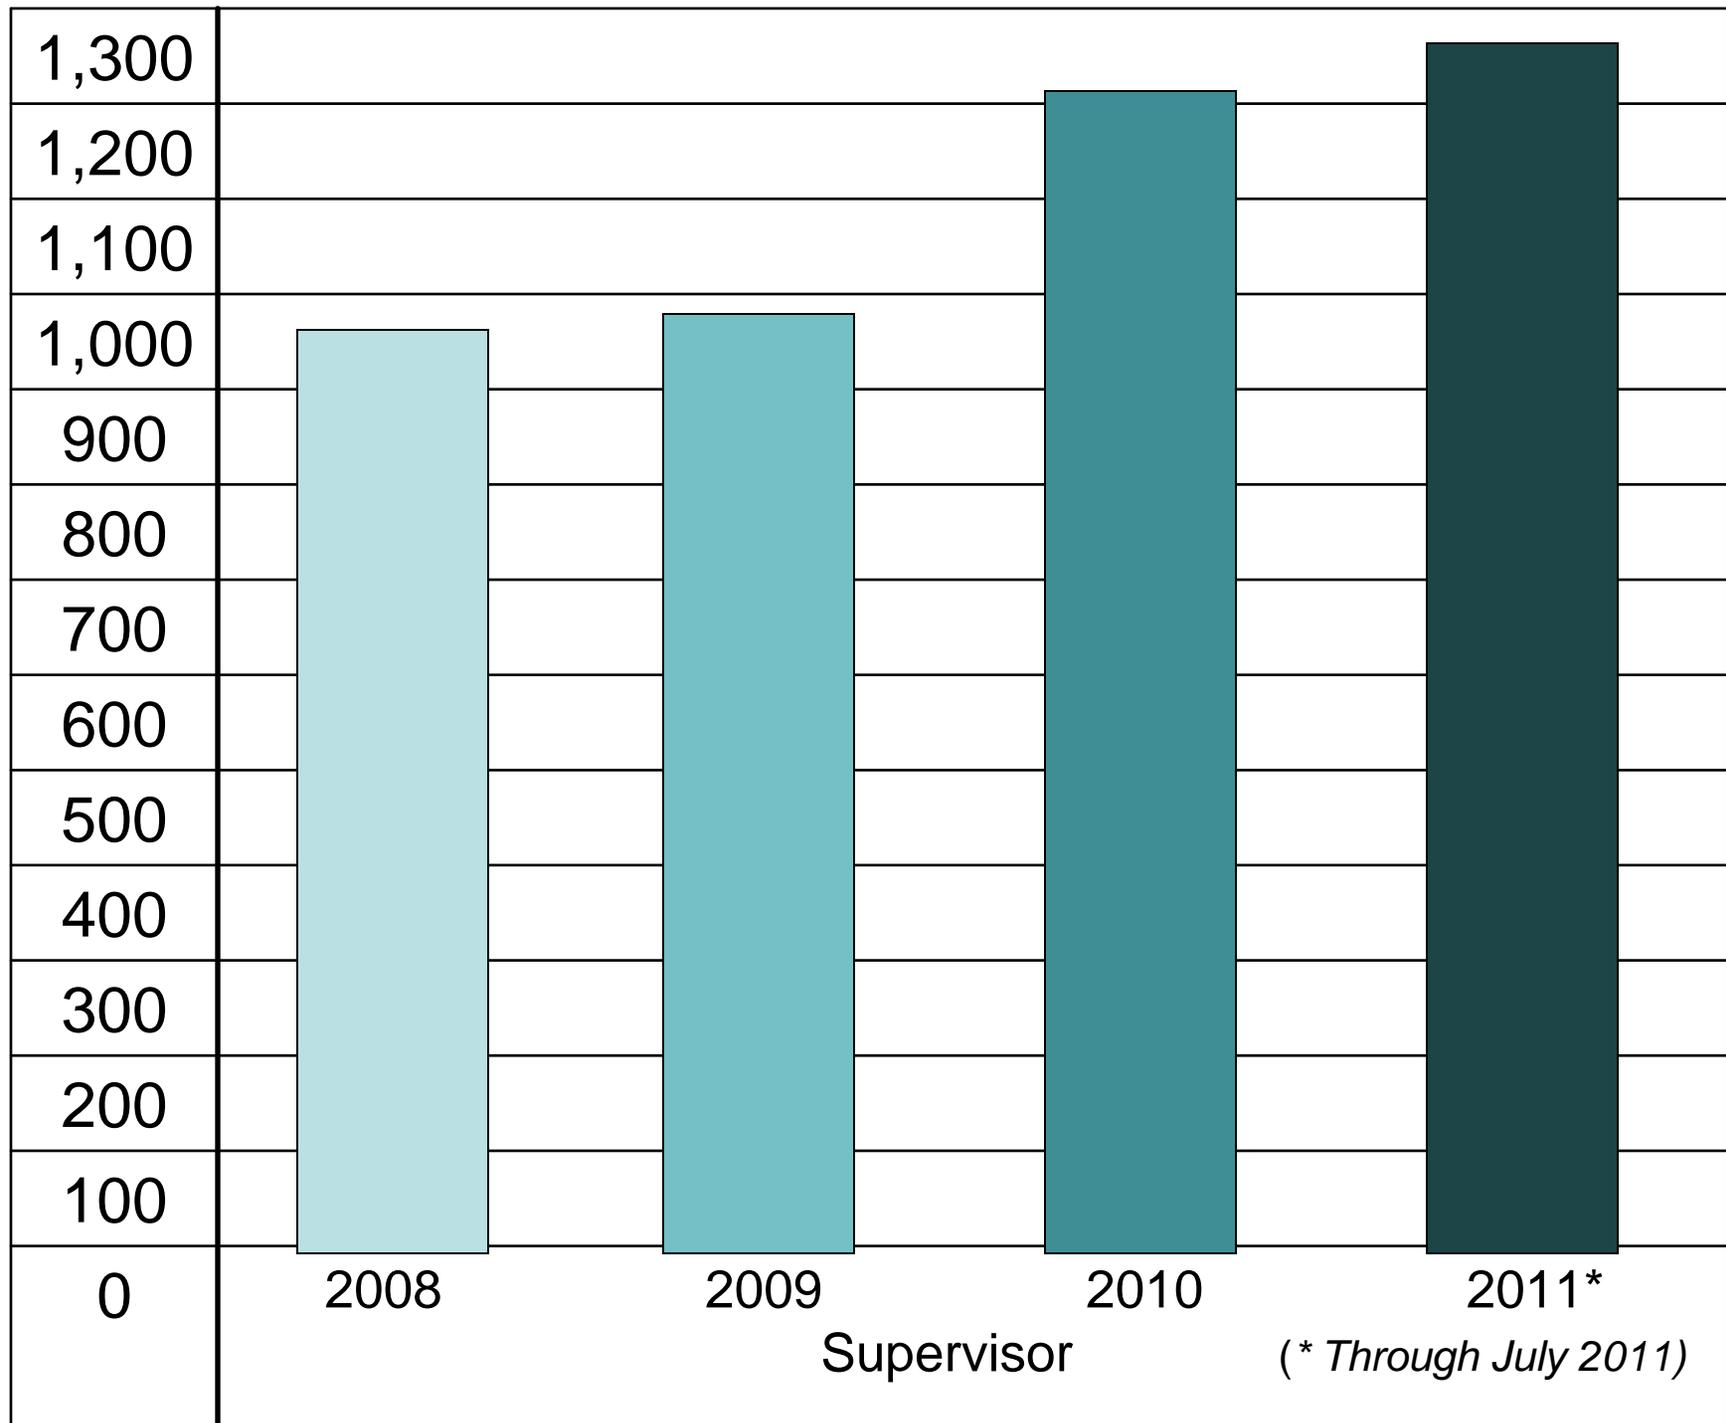

So the forecast is that certification numbers will plateau over the next couple of years,

*but...*

I said that two years ago and the numbers keep going up.

# *Training Trajectories*

## Goals for Training Providers

- Provide the Required Training Time (see the Rules)
- Provide the Required Hands-On Training that is Required in the Rules
- Provide the Skills Assessment for Hands-On Activities Required in the Rules

# *Training Truths*

## **More Trainers – Same Pie**

- In the last year and a half Inspector/Risk Assessors training providers have increased from 2 to 4.**
- Worker and Supervisor training providers have gone from 7 to 9 in the last year.**

# 2010

## *Training Truths*

Initial

Refreshers

Total

Workers	72	13	85
Supervisors	424	231	655
Inspectors	48	15	63
Risk Assessors	69	66	135

# ***Training Goals for the Future***

- Hands-on activities are intended to be meaningful work related activities***
- Skills assessment for hands-on activities***
- Mandatory hands-on tasks***

# ***Topics for the Trained***

- We encourage you to renew online
- We are still awaiting the ability to do initial applications online
- When March 31<sup>st</sup> comes if you need a refresher you cannot work after March 31<sup>st</sup>

An aerial photograph of a forested area, likely a park or natural reserve. The image shows a dense canopy of trees in shades of green and brown, with a winding road or path cutting through the forest. A body of water is visible in the lower right quadrant. The overall tone is muted and slightly desaturated.
