Many people do keep their doctors. If you checked last year and your doctor was not part of MI Health Link, you should check again as many doctors have joined MI Health Link health plans.

Linking Medicare and Medicaid for you

MI Health Link allows you to get your Medicare and Medicaid services from one health plan, to coordinate all of your healthcare needs.

Why should I join MI Health Link?

You will have a care coordinator to help you. See “Comments from MI Health Link Enrollees” to see what care coordinators do.

It’s easier! MI Health Link brings Medicare and Medicaid services together to meet all of your healthcare needs.

You can get medical advice by phone at any time. You can speak to a nurse any time you need to, including at night and on weekends.

You get extra benefits traditional Medicare and Medicaid don’t offer. Benefits vary depending on which health plan you choose and what you are eligible for.

Comments from MI Health Link Enrollees
