

PUBLIC HEALTH RESOURCES FOR PRIMARY CARE PROSTATE CANCER

INTRODUCTION

The Cancer Prevention and Control Section at the Michigan Department of Health and Human Services (MDHHS) administers programming and information related to breast, cervical, and colorectal cancers as noted in the first two items listed below. In partnership with the Michigan Cancer Consortium, a statewide coalition of over 100 cancer organizations, information, and resources are available on a variety of topics including prostate cancer and cancer survivorship.

[Michigan Cancer Consortium](#)

The Michigan Cancer Consortium website provides a forum for collaboration among its 100+ members to improved cancer outcomes for Michigan residents.

PROSTATE CANCER

[MCC Prostate Cancer Resources](#)

Michigan Cancer Consortium Prostate Cancer Resources is a collection of online materials developed to help men make decisions about treatment, and manage common treatment side effects. Resources include a booklet, *Making the Choice – What to Do About Early Prostate Cancer*, and 14 guides focused on potential side effects of treatment. The guides were updated in 2013.

Target Population	<ul style="list-style-type: none"> • Patients newly diagnosed with prostate cancer • Patients who have undergone prostate cancer treatment • Prostate cancer survivors and family members
Website	http://www.prostatecancerdecision.org/

[MCC Recommendations for Prostate Cancer Survivorship Care](#) This document is designed to help providers guide patients in managing the after-effects of prostate cancer treatment. Use of these guidelines was evaluated by researchers at two medical centers in 2010, and found to be helpful. Providers in the study suggested that availability of the guidelines should be publicized widely to clinicians.

Target Population	Primary Care Providers: physicians, nurse practitioners, physician assistants
