

Migration of Legacy Suspended Claims into CHAMPS Reminder- Projected to begin October 1, 2009 MDCH will initiate the process of resurrecting all claims that rejected with proprietary edit 743 for adjudication in CHAMPS. Claims will not be recreated in CHAMPS if any of the following occur: the claim was submitted without a reported billing NPI, the rendering/servicing only NPI was incorrectly reported in the billing NPI loop/field, or the provider has not revalidated in the CHAMPS Provider Enrollment subsystem. These claims **will not** be available for inquiry in CHAMPS until after the projected date.
