

Michigan Partners on the PATH

Step 4

Welcome

This survey asks for basic information about you. We encourage you to complete the entire survey, but you may leave any or all of the questions blank. Your responses will be kept confidential and will not affect any assistance or services you are receiving now, or may receive in the future. Summarized information from *all* participants helps us demonstrate how this program is serving people who will benefit the most, so your responses are extremely helpful.

Participant numbers from the attendance sheet are recorded on the surveys so that we can match survey information with attendance information. Again, this information is summarized across all participants. Your name will not be recorded in permanent records at any time, nor will it be matched with your answers. You may use a nickname or your first name and last initial on the attendance sheet, instead of your full name, if you would like.

If you have any questions about what is being asked of you, please ask your Group Leader.

Thank you for completing this important survey!
