

**Sickle Cell Disease
Public Health Strategic Planning Meeting
October 13, 2014**

Public & Private Insurance Challenges

{Identify up to 3 priority goals and strategies to address this issue}

1. Define the problem.
2. Identify barriers and solutions to addressing the problem.
3. Identify best practices or existing models. If a model or best practice doesn't exist for sickle cell disease, does it exist for another disease? Describe.
4. Prioritize the issues you identified in order of importance and feasibility. How could the health department implement your strategy and who would do it?
5. What medical care and treatment services needed by patients with SCD are typically covered/not covered by public and private insurance plans? {CSHCS vs Medicaid as an example}
6. What can public health do to close any identified gaps?
