Dear Mr. Reinhart:

Enclosed for your records is an approved copy of the following State Plan Amendment (SPA).

Transmittal #07-002  Outpatient Hospital Laboratory Services –
Effective April 1, 2007

Under regulations at 42 CFR 430.12(c)(i), States are required to amend State plans whenever necessary to implement changes in Federal law, regulations, policy interpretations, or court decisions. On May 25, 2007, CMS placed a final rule, CMS-2258-FC (Cost Limit for Providers Operated by Units of Government and Provisions to Ensure the Integrity of Federal-State Financial Partnership) on display at the Federal Register and that can be found at 72 Fed. Reg. 29748 (May 29, 2007) that would modify Medicaid reimbursement. Because of this regulation, some or all of the payments under this plan amendment may no longer be allowable expenditures for federal Medicaid matching funds. Public Law 110-28, enacted on May 25, 2007 instructed CMS to take no action to implement this final regulation for one year. CMS will abide by the time frames specified by the statute. Approval of the subject State plan amendment does not relieve the State of its responsibility to comply with changes in federal laws and regulations, and to ensure that claims for federal funding are consistent with all applicable requirements.

If you have any questions, please contact Cynthia Garraway by telephone at (312) 353-8583 or by e-mail at Cynthia.Garraway@cms.hhs.gov.

Sincerely,

Verlon Johnson

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

Amount, Duration and Scope of Medical and Remedial Care Services Provided to the Categorically and Medically Needy

2. OUTPATIENT HOSPITAL SERVICES

Professional fees for services provided in the outpatient department of a hospital will be paid only when such payment does not duplicate payment to the hospital.

Educational costs associated with the outpatient department will be reimbursed to hospitals with approved training programs (as described in 404.1 of the HIM-15 manual).

Payment will not be made for services of staff in residence, e.g., interns and residents or medical staff functioning in an administrative or supervisory capacity (including physician-owners) who are paid by the hospital or other sources.

Outpatient services relating to routine examinations only, i.e., unrelated to a specific illness, symptom, complaint, or injury, are not covered, except when provided to eligible children under age 21 as part of a program of early and periodic screening, diagnosis and treatment. (See Item 4b.)

Outpatient hospital services include prenatal and postnatal care; and services listed below when medically necessary for the diagnosis or treatment of an illness or injury when ordered by and under the direction of a physician (M.D. or D.O.), and services performed by the physician:

1) radium treatment
2) therapeutic x-ray
3) diagnostic x-ray
4) emergency treatment
5) physical therapy, as defined in 1.a of Supplement to Attachment 3.1-A. Prior approval is required if services exceed the time or frequency for:
   - initial treatment (36 times in 90 consecutive calendar days) or
   - maintenance/monitoring (four times in the 90-day allowed period)
6) laboratory tests
7) electrocardiogram
8) electroencephalogram
9) basal metabolism
10) hemodialysis

NOTE: The patient who receives hemodialysis in his home is considered to be a hospital outpatient. Therefore, payment for the cost of hemodialysis supplies, such as plastic tubing, chemicals, disposable coils, etc., may be made under the Program.

Policy and Methods for Establishing Payment Rates
(Other than Inpatient Hospital and Long Term Care Facilities)

20. Laboratory Services

Payment rates for clinical laboratories, physician's offices and clinics are established by the Michigan Department of Community Health as a fee screen for each procedure. The fee schedule is designed to enlist the participation of an adequate number of providers. The Medicare prevailing fees are used as guidelines or reference in determining the maximum fee screens for individual procedures.

Providers other than the State Bureau of Laboratories are reimbursed the lesser of the Medicaid fee screen or the provider's usual and customary charge minus any third party payment. A provider's usual and customary charge should be the fee most frequently charged to patients. The State Bureau of laboratories may be reimbursed up to the Medicare prevailing fees.

Laboratory services performed by an eligible provider are limited to a maximum payment rate per beneficiary per day. This rate is determined to be adequate to cover reasonable and necessary procedures. Laboratory services in excess of this rate are covered on an exception basis when determined to be medically necessary by the department.

Laboratory services provided by outpatient hospitals or ESRD facilities are reimbursed through the Medicaid OPPS and are not limited by a maximum payment rate per beneficiary per day.
