***PUBLIC COMMENT***

Clark thanked the DSC for their insight in recognizing when more information is needed in deciding regulatory cases and asking that those cases be tabled. She addressed the importance that mitigating factors must be included in the information provided to the DSC so that the appropriate sanctions can be administered.

The committee members also stressed that proposed CE needs to be appropriate for the violation and conferees should look at NCSBN Learning Extension for appropriately titled courses.

Miller indicated that he would meet with the enforcement section staff and address the DSC members' concerns and requests.
