EDUCATIONAL LIMITED PHARMACIST (INTERN) LICENSURE**INSTRUCTIONS FOR APPLICANTS ATTENDING ACPE ACCREDITED PHARMACY EDUCATION PROGRAMS**

An individual is eligible for intern licensure at the beginning of the first professional year or third year, if appropriate, of study in an accredited college or school of pharmacy. You must hold an intern license for any of your intern hours obtained in Michigan to count toward licensure.

To receive a Michigan Pharmacist Intern license you must:

1. Complete the application and return it to the Board of Pharmacy with the appropriate fees. An application accompanied by the appropriate fee is valid for two years. If an applicant fails to complete the requirements for licensure within two years from the date of filing the application, the application is no longer valid.
2. This office requires the dean of your college of pharmacy, or his/her authorized agent, to verify your enrollment in the college or school of pharmacy. A section of the application is provided for this purpose.

The educational limited license is renewable annually for a maximum of five years and shall remain active while the applicant is actively pursuing a degree in an accredited college or school of pharmacy and until the applicant is licensed as a pharmacist or for not more than one year from the date of graduation from your pharmacy program, unless extended by the board upon written request of the intern.

If you leave the college or school of pharmacy for any reason, you must notify this office immediately. If you do not re-enter the college or school of pharmacy after a break of no more than one term or semester (whichever is applicable), you must return your Educational Limited license to this office. When you re-enter a college or school of pharmacy you may reapply for an intern license upon notification from the office of the Dean of your re-admittance.

Hours of internship experience are computed from the date you are approved for board certification as a licensed intern. In computing the hours of internship, all of the following provisions apply:

- a. Experience is granted only upon verification by an approved pharmacy preceptor or other person previously approved by the board.
- b. The board may grant up to 400 hours of internship experience gained in unconventional internship programs (i.e. labs, factory settings). Any unconventional hours must be documented on official letterhead and sent to the Board by the preceptor.
- c. A maximum of 40 hours of internship experience is granted per calendar week when the applicant is not in school.
- d. A maximum of 16 hours of non-college-sponsored internship experience is granted per calendar week while the intern is a full-time student in a college or school of pharmacy.

- e. The board may grant credit for internship experience obtained through practice as an intern in another state if the experience was comparable to the requirements for internship in Michigan (Administrative Rule R338.473a). Verification of this experience must be received directly from the state licensing office in the state where the internship hours were obtained.
- f. The board may accept experience as a licensed pharmacist in another jurisdiction as the equivalent of internship experience. Verification of licensure must be received directly from the state in which you are licensed.

An intern must be supervised by an approved pharmacist preceptor and must, at all times, practice only under the personal charge of a pharmacist. **The intern is responsible for verifying board approval of his/her pharmacy preceptor.**

The board may deny, suspend, or revoke the license of an intern or may deny hours of internship for failure to comply with pharmacy laws or rules relating to pharmacy practice or internship.

Please refer to Administrative Rule R338.473a for specific information about licensure as an intern in Michigan.
