05.17.13	Tested Roster Window Closes (tentative date) ***	Verification & Reporting											
	Green Reporting Opt-out Window Closes (tentative date)												
TBA	Electronic ISR, PR, CR, and SDF Available ****												
TBA	Printed Reports Begin Shipping												

* The PreID window allows coordinators to "register" students for the Spring ELPA. The State provides a framework of students with which coordinators must review to insure that students are not misidentified or missing from the list. Once a student is pre-identified, test materials (and a student barcode label) will automatically be queued for that student's use.

** Placing an Initial Material Order will override the material quantities automatically calculated based on their PreID counts.

*** The Tested Roster lasts only one week. It is the districts last opportunity to review student information and identify missing tests.

**** Once electronic reports become available, districts/school coordinators may review student score results online. If your district/school has late fees or barcode fees, your reports will be withheld until payment has been received. Please be sure to return all materials on time and properly barcode labeled.

Note regarding TBA Items: Coordinators should anticipate a communication following the Tested Roster Window announcing the Electronic and Printed report availability.
