TITLE: ISD Collaboration Grant

PURPOSE: The Office of Education Improvement and Innovation (OEII) oversees several programs that are required to provide technical assistance, oversight, and monitoring to ensure that accountability provisions are fully implemented. This collaboration grant will expand the state’s capacity for compliance with legislative requirements and would enhance the capacity at the Intermediate School District (ISD) level to assist local districts. This grant will provide fiscal administration, coordination, and support for these initiatives. The Michigan Department of Education (MDE) will partner with the recipient ISD to provide support at the state and ISD level statewide. The grant criteria outlined in this announcement and supporting application was approved by the State Board of Education at its February 9, 2010, meeting.

PROPOSAL DUE IN TWO FORMATS: Submit the proposal electronically to McClainC@michigan.gov by 5:00 p.m. on May 17, 2013. A paper copy bearing ORIGINAL signatures and four (4) copies (for a total of five) must be postmarked no later than May 17, 2013, and addressed to Linda Forward, Office of Education Improvement and Innovation, 608 West Allegan Street, P.O. DATE OF ISSUE: April 15, 2013
SECTION I: General Information for the Bidder

INTRODUCTION

Several programs housed within the OEII require the state to provide technical assistance, oversight, and monitoring to ensure that accountability provisions are fully implemented. The OEII receives federal program funds to administer, monitor, and implement programs that improve the achievement of schools most in need of technical assistance, to provide curricular support for those schools, and to improve the technology programs across the state. This collaboration grant program will expand the state’s capacity for compliance with legislation requirements and enhance the capacity at the ISD level to assist local districts. The MDE will partner with the recipient ISD to provide support at the state and ISD level statewide. There are two areas of focus for this collaboration grant:

Area 1: Staffing of ISDs to support the Statewide System of Support (SSoS) as well as other state and federal grant administration.

The OEII works with ISDs that have schools and districts eligible for Michigan’s SSoS in order to build ISD capacity and through those ISDs, provide technical assistance to identified schools in order to improve the academic performance of students. The MDE will partner with these ISDs to expand the outreach of the MDE and develop capacity in local educational agencies to improve and sustain student achievement.

Area 2: The partnership program focuses on the expansion of compliance monitoring, instructional and school improvement tool dissemination, technical assistance, and professional development.

The partnership program will allow the MDE to more effectively utilize existing state and federal funds to fulfill the federal requirements and statewide initiatives.
