

**SCHOOLS REQUIRED TO USE STANDARD SAMPLE SIZE
For Verification of Household Income
SCHOOL YEAR 2016-2017
Sponsors Over 20% of Non-Response Rate**

The School Food Authorities (SFAs) listed in the table below are required to use *Standard Sampling for Verification of Income for Household Applications for School Year 2016-2017*. This is a more rigorous method of sample selection for conducting Verification based on a non-response rate of 20% or greater for the applications selected for Verification that did not respond to your request to provide additional income information. Since your non-response rate was over 20%, your Local Education Authority did not meet the 80% threshold for households responding to applications requiring additional income information.

When households do not respond to the verification request this affects your response rate. If the SFA is aware that some households would be unable to respond to the verification request, up to 5% of the applications can be replaced. This decision is made on a case by case basis.

The directions for using the Standard Sample Size for Verification of Income for Household Application are attached.
