## Administrative Costs 2013-14

PA 60 of 2013:

*Sec. 32d(8). An intermediate district or consortium of intermediate districts receiving a grant under this section may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 7% of the grant amount. In addition, an intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for recruiting and public awareness of the program.*

An ISD may retain up to 7% of the total allocation for administrative services as described in the Budget section of the GSRP Implementation Manual. If an ISD retains 7% of the total allocation for administrative services, a maximum of an additional 3% of the total allocation may be utilized by the subrecipients. If an ISD retains less than 7% of the total allocation for administrative services, it may decide that up to an additional 2% of the unused portion of its permitted percentage for administration may be used by the subrecipients. Subrecipient administrative costs may not exceed 5% of the subrecipient's allocation. Total administrative expenses between the ISD and all of the subrecipients must not total in excess of 10% of the entire ISD allocation. Any funds not utilized for administrative services at the ISD or subrecipient are used for program expenses.

An ISD may also retain a maximum of 2% of the total allocation for centralized, collaborative recruitment and enrollment. An ISD retaining the 2% of the allocation allowed for recruitment and enrollment activities must ensure that recruitment and enrollment costs to subrecipients are similarly reduced by the activities undertaken by the ISD.
