Dedicated, diligent and resourceful speaks to my professional motivation and desire to assist teachers in preparing students for competing in a global society. As a teacher in the k-12 environment, I have served as a co- leader for the School Improvement/Reform process, Instructional Consultation Facilitator, Interim Assistant principal and spear headed the Freedom to Learn initiative for the middle school. Additionally, my experience as a leader on the Restructuring Team for the Middle School afforded me with the opportunities to assist with the design and development of the instructional programs to meet the education/training goals for students and teachers. Currently, I am serving as the Title I Teacher for an elementary and middle school with the sole responsibility of improving the achievement of all students. This position has provided me with the opportunity to collect and analyze data to assist teachers with instruction.

I received my BA/BS/ in education from Western Michigan University and a MA/MS in Reading from Eastern Michigan University. At this time, I am pursuing an Education Leadership Specialist Degree from Eastern Michigan University with a completion date of June 2008.
