MICHIGAN STATE BOARD OF EDUCATION

STATEMENT OF ASSURANCE OF COMPLIANCE WITH FEDERAL LAW

The Michigan State Board of Education complies with all Federal laws and regulations prohibiting discrimination and with all requirements and regulations of the U.S. Department of Education. It is the policy of the Michigan State Board of Education that no person on the basis of race, color, religion, national origin or ancestry, age, sex, marital status, or handicap shall be discriminated against, excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination in any program or activity for which it is responsible or for which it receives financial assistance from the U.S. Department of Education.

The *Grade 5 Participation Science Assessment* was administered for the first time in Fall 2007. Beginning with this administration, the Office of Educational Assessment and Accountability (OEAA) will annually release a portion of the items that are administered on the assessment. This booklet contains released items from the Fall 2009 administration and is intended to be used by districts to assist in their interpretation of item analysis data. The information contained in this booklet may also be used by schools, teachers, and parents as a resource for understanding the content and format of the assessment items. In addition to MI-Access training materials and Extended Benchmarks (EB), the released items may also have utility in informing decisions related to instruction, curriculum, and assessment. These items are **not** secure and may be copied and distributed as needed.

The table below lists the number of core and released items administered on the Fall 2009 *Grade 5 Participation Science Assessment*. Core items are those that count toward students' scores. All released items in this booklet were selected from the pool of core items that appeared on the assessment.

Participation Science Grade 5

Science Strand	Number of Core Items
Life	5
Physical	5
Earth	3
Constructing	1
Reflecting	1
Total Items	15
Total Possible Points	90*
Released Items	3 (Numbers vary by strand and topic.)

*3 points/item Primary Assessment Administrator + 3 points/item Shadow Assessment Administrator = 6 points possible/item

Participation General Directions

- Prior to administration, review the assessment items. The Participation assessment uses two item formats: selected-response and activity-based observation. All items are scored with the Participation Scoring Rubric. Learning how to apply the rubric correctly is very important to the reliability of the assessment. The *2009/2010 MI-Access Coordinator and Assessment Administrator Manual* and the *MI-Access Participation and Supported Independence (P/SI) Scoring Rubrics Online Learning Program* (www.mi-access.info) both contain examples on how the rubric should be applied. In addition, the "Scoring Rubric Flow Chart" included in the manual explains when to give a student a score point or a condition code.
- All items are designed to assess the science Extended Benchmarks (EBs), which link the assessments to the Michigan Curriculum Frameworks' Content Standards.
- All answer choices for selected-response items require graphics. These have been provided as thumbnails on the page containing the item and as separate full-page (8½ x 11) picture cards coded to the individual items for which they will be used. Prior to administration, review the items and corresponding picture cards to ensure that you have the correct one for each item. When administering the assessments, these picture cards must be presented to the student two times in a different order, and the student must respond correctly both times. Both the MI-Access manual and the scoring rubrics online learning program provide detailed descriptions and examples of how to present items with picture cards to the student.
- The activity-based observation items are designed to (1) reflect classroom activities with which students should be familiar, and (2) provide a performance context in which specific Michigan science EBs can be assessed. Review the item components, which include the actual activity that will be observed and the scoring focus.
- Plan for appropriate materials and any individualized communication or technology devices the student may need, such as augmentative communication devices and/or other specialized equipment. Keep in mind that any aids or materials used must be chronologically age appropriate and reflect what the student typically uses during instruction (in other words, do not introduce a new device or material during assessment administration).
- If possible, plan observation times when the item/activity may typically occur. While some activities will occur naturally in the classroom, others may require more detailed planning in order to observe the specific scoring focus. Prepare to adjust the instructional environment as needed.
- Persons involved in the assessment should follow universal health precautions when needed.
- Determine which **two** people will observe and score the items. A certified professional staff member (such as a teacher, school psychologist, related service provider, or teacher consultant) must act as the Primary Assessment Administrator (PAA). Shadow Assessment Administrators (SAA) can also be certified staff or other school personnel (such as highly qualified paraprofessionals). Keep in mind that both PAAs and SAAs must (1) be familiar with the student, and (2) not impede or influence any interaction particular to the item.
- Both the PAA and SAA will need to tear or cut out their respective MI-Access Assessment Administrator Scoring Documents, which are located in the assessment booklet following the assessment items. This is where the PAA and SAA will record the score point or condition code for each selected-response or activity-based observation item. Using a separate scoring document allows the PAA and SAA to independently score the student's response to each item. Once all of the items have been administered, the score points or condition codes recorded by the PAA and SAA must be transferred to the student's answer document using a Number 2 pencil.

R1 What needs to eat food?

dog

shoe

SCORING FOCUS: Discriminating between living and non-living things

Item R2

ACTIVITY: The student will correctly identify the sound of a telephone when shown a telephone and then presented with the sound of ringing and another sound, such as a drum beat or clapping.

SCORING FOCUS: Identifying characteristics of sound

Item R3

ACTIVITY: The student will correctly indicate, by manipulating or observing, how to conserve water, during a familiar personal hygiene routine, by turning off the source. For example, the assessment administrator could complete a hand washing routine with the student, leave the water running, and ask, "Show me what we turn off to save water," or "What do we need to do to save water?"

SCORING FOCUS: Identifying routines related to conservation of natural resources

Do Not Continue.

Student Name: _____

MI-Access Primary Assessment Administrator Scoring Document

Directions: *Tear or cut this document out of the assessment booklet.* Circle your scores for the student on this document, then transfer them to the student answer document. Please be careful that your scores from this sheet are transferred to the correct numbered item on the student answer document.

Science Participation Items

Item R1

- 3** Responds correctly with no assessment administrator assistance
- 2** Responds correctly after assessment administrator provides verbal/physical cues
- 1** Responds correctly after assessment administrator provides modeling, short of hand-over-hand assistance
- A** Incorrect response
- B** Resists/Refuses
- C** Assessment administrator provides hand-over-hand assistance and/or step-by-step directions

Item R2

- 3** Responds correctly with no assessment administrator assistance
- 2** Responds correctly after assessment administrator provides verbal/physical cues
- 1** Responds correctly after assessment administrator provides modeling, short of hand-over-hand assistance
- A** Incorrect response
- B** Resists/Refuses
- C** Assessment administrator provides hand-over-hand assistance and/or step-by-step directions

Item R3

- 3** Responds correctly with no assessment administrator assistance
- 2** Responds correctly after assessment administrator provides verbal/physical cues
- 1** Responds correctly after assessment administrator provides modeling, short of hand-over-hand assistance
- A** Incorrect response
- B** Resists/Refuses
- C** Assessment administrator provides hand-over-hand assistance and/or step-by-step directions

Student Name: _____

MI-Access Shadow Assessment Administrator Scoring Document

Directions: *Tear or cut this document out of the assessment booklet.* Circle your scores for the student on this document, then transfer them to the student answer document. Please be careful that your scores from this sheet are transferred to the correct numbered item on the student answer document.

Science Participation Items

Item R1

Below is a list of the Extended Benchmarks (EB) for each released item found in this booklet. The chart contains the EB code and a brief description of what is measured.

Full descriptions of the EB contained in the chart below are available for review and download at www.mi.gov/mi-access.

Science		
Released Item Number	EB Code	SCORING FOCUS
		LIFE
R1	L.CE.P.EB.III.1.m.1ADDe	Discriminating between living and non-living things
		PHYSICAL
R2	P.WV.P.EB.IV.4.e.1a	Identifying characteristics of sound
		EARTH
R3	E.GE.P.EB.V.1.e.6a	Identifying and/or demonstrating everyday routines related to conservation
