This booklet contains sample Functional Independence Accessing Print items from previous test administrations. The information contained in this booklet may be used by schools, teachers, and parents as a resource for understanding the content and format of the assessment items. This document is not secure and may be copied and distributed as needed.

Each sample item contained in this booklet is preceded by the Extended Grade Level Content Expectation (EGLCE) code and a brief description of what the item measures. This EGLCE code and abbreviated descriptor is provided as a reference for educators, and does not appear in the student test booklet. The complete set of Michigan’s Extended Grade Level Content Expectations and Extended Benchmarks is located at www.michigan.gov/mi-access.

Since the grades 3-8 assessments are administered during the fall of the school year, only content from the previous grade level is measured on the assessment. For example, items eligible for the Grade 4 assessment will measure Grade 3 EGLCEs.

The Word Recognition portion of the assessment assesses high-frequency sight words and high-utility functional vocabulary that are relevant to the Functional Independence student population. Assessed words are (1) highly familiar to students, (2) appear frequently in print in students’ daily environments, and (3) measure important vocabulary.

At grades 4-8 and 11, students are asked to select a word that correctly completes a sentence. This task assesses a student’s understanding of the role that word meaning (semantics) and word order (syntax) play in sentence construction. All students – regardless of grade – have three words, or answer choices, from which to choose. Students may have the stem (question) read aloud for them, but not the answer choices.

In the Text Comprehension portion of the assessment, students read or listen to three types of passages: narrative, informational, and functional. Narrative passages are fictional stories, Informational passages present factual information, and Functional passages present information in real-life context or format. Each passage is followed by 7 multiple choice questions.

All passages consist of content and vocabulary that are appropriate for the students being assessed. Students may have any or all of the passages and/or items read aloud to them.
