Reading Passages Screen

Begin the Test Screen

While students are taking the assessment, be available as a resource. Do not give any individual or group help that might suggest the correct answer to a question, that a student should “check” an answer, or that a student has answered a question incorrectly. You may, however, provide clarification of directions and assist students to functionally operate their computers, and check to make sure that all questions have been completed.

Sometimes a word of encouragement is all that is needed to help a student continue to work. Encourage students to try all of the tasks and to complete the assessment.

The estimated testing time for Part 1 or Part 2 of the test is 35–45 minutes, but the actual administration time may vary. Since each student is to be provided sufficient time to finish the assessment, additional time may be allowed on an individual basis if one or more students are continuing to make reasonable progress on the assessment.

End the class testing session only when all students have completed all questions. For more information about Additional Testing Time, contact your Building Coordinator.

REVIEWING AND ENDING THE TEST

SAY: As you complete the assessment, be sure to raise your hand, and I will come around to help you.

When students have indicated that they have completed a part of the assessment and have reached the Stop sign page, Test Administrators must select “Yes,” select the **Review/End Test** button and follow the on-screen directions to ensure that the student has answered all the questions. Note: If “Yes” is not selected, it will show as questions not answered on the summary page. After the student has checked their work, follow the on-screen instructions. Please note that the stop sign will NOT appear again after the last question if the student goes back to review any items. Students may then read or sit quietly until everyone has finished.

For students who indicated that they need additional time, if they can remain in the same location with a Test Administrator, allow them to continue working. If those students need to move to a new location to continue the assessment, the Test Administrator should select the **Pause** button located at the bottom of the screen. They should then select the **Exit** button and then the **Yes, Exit** button on the pop-up screen. As the students have not completed the assessment, they should not select **End Test** or **Submit**. The same Test Tickets may be used to log back in to the assessment and resume and complete the test in the new location (so long as they are continuing testing on the same day). If students are not going to complete testing on the same day, collect the test tickets for redistribution when testing resumes. After the students complete the testing, either in the same location or in an alternate location, any materials should be collected and returned to the Building Coordinator. Any electronic devices collected from the students prior to testing should be returned to the students.

SUBMITTING THE TEST

Check to see that all questions have been answered by each student. If there are test questions the student did not answer, the student must return to the question (by clicking on the test question line) before helping them end the assessment. When you have confirmed all items have been answered, select **End Test**. You will be asked to return to review or to end the test.

Note: Once the **Submit** button has been selected, confirmation must be completed. Once this process is complete, the student cannot go back into the test to review or answer test questions.

When all students have finished, or sufficient time has passed,

SAY: This ends this part of the Grade 2 ELA Benchmark Assessment. I will be around shortly to help you. Please sit quietly until it is your turn.

At this point, Test Administrators should have selected **End Test**. Then select **Submit**, confirming the student is done. Next, select **Exit** to return to the Sign In screen (shows Username and Password screen). Then select the **Back** button on the Sign In screen.

SAY: Now we are ready to start the questions. Please select the **Begin the Test** button at the bottom of the screen. You may begin.

Check to make sure all students have selected the **Begin the Test** button and have started the questions.

Collect Test Tickets while students are working. Confirm students are on the correct part of the test by checking their screens.

While students are taking the assessment, be available as a resource. Do not give any individual or group help that might suggest the correct answer to a question, that a student should “check” an answer, or that a student has answered a question incorrectly. You may, however, provide clarification of directions and assist students to functionally operate their computers and check to make sure that all questions have been completed.

Sometimes a word of encouragement is all that is needed to help a student continue to work. Encourage students to try all of the tasks and to complete the assessment.

The estimated testing time for Part 1 or Part 2 of the test is 35–45 minutes, but the actual administration time may vary. Since each student is to be provided sufficient time to finish the assessment, additional time may be allowed on an individual basis if one or more students are continuing to make reasonable progress on the assessment.

End the class testing session only when all students have completed all questions. For more information about Additional Testing Time, contact your Building Coordinator.

REVIEWING AND ENDING THE TEST

SAY: As you complete the assessment, be sure to raise your hand, and I will come around to help you.

When students have indicated that they have completed a part of the assessment and have reached the Stop sign page, Test Administrators must select “Yes,” select the **Review/End Test** button and follow the on-screen directions to ensure that the student has answered all the questions. Note: If “Yes” is not selected, it will show as questions not answered on the summary page. After the student has checked their work, follow the on-screen instructions. Please note that the stop sign will NOT appear again after the last question if the student goes back to review any items. Students may then read or sit quietly until everyone has finished.

For students who indicated that they need additional time, if they can remain in the same location with a Test Administrator, allow them to continue working. If those students need to move to a new location to continue the assessment, the Test Administrator should select the **Pause** button located at the bottom of the screen. They should then select the **Exit** button and then the **Yes, Exit** button on the pop-up screen. As the students have not completed the assessment, they should not select **End Test** or **Submit**. The same Test Tickets may be used to log back in to the assessment and resume and complete the test in the new location (so long as they are continuing testing on the same day). If students are not going to complete testing on the same day, collect the test tickets for redistribution when testing resumes. After the students complete the testing, either in the same location or in an alternate location, any materials should be collected and returned to the Building Coordinator. Any electronic devices collected from the students prior to testing should be returned to the students.

SUBMITTING THE TEST

Check to see that all questions have been answered by each student. If there are test questions the student did not answer, the student must return to the question (by clicking on the test question line) before helping them end the assessment. When you have confirmed all items have been answered, select **End Test**. You will be asked to return to review or to end the test.

Note: Once the **Submit** button has been selected, confirmation must be completed. Once this process is complete, the student cannot go back into the test to review or answer test questions.

- Interrupted Testing: emergency issues (e.g., fire alarms, electrical outages, etc.)
- Unplanned Test Inactivity: more than 20 minutes of no input from the student

Note: In the event of a temporary loss of Internet connectivity, wait a few minutes, and then try again to complete the test. If the problem persists, consult the Technology Coordinator, or if unavailable, the Building Coordinator.

MATHEMATICS DESIGNATED SUPPORT TEXT-TO-SPEECH (TTS)

Make sure that each student is sitting at a separate computer and that each computer is turned on and open to the desktop. Students who are taking the assessment as a designated support, will need a set of headphones. It is recommended that these be set up prior to beginning the assessment. Make sure that no student is in possession of a cell phone, camera, or other electronic device. It is recommended that Test Administrators collect any electronic devices prior to distributing any assessment materials.

Note: Make sure that students have working headphones connected to their computers. At this time, students should not have the headphones on. Students may hear some audio as you are reading the test directions.

- **Read each question carefully.**
- **Choose the correct answer or answers and select your choice on the computer screen.**

I will now pass out your Student Login Ticket, or Test Ticket. Once you have your Test Ticket, please wait for me to give you more directions. Do not log in to your test until I tell you to do so.

Distribute individual Student Login Tickets (Test Tickets). The Test Tickets are unique to each student, so match the correct Test Ticket to each student.

SAY: **Each of you now has a Test Ticket. Check to make certain that your name and date of birth appear on the Test Ticket and it says Math Grade 2—Part 1 or Math Grade 2—Part 2. Raise your hand if your Test Ticket does not have your name and the correct date of birth on it or you need help.**
