

Karen Lee, Ph.D.

School Improvement/Data Analysis Specialist

Karen Lee is an educational researcher and school improvement consultant who is committed to the challenge of equalizing educational opportunities for urban school students. A strong supporter of public school reform, Dr. Lee has been a leading advocate of successful school decision-making through the effective use of data for more than 10 years. In addition, she possesses a wealth of knowledge and experience regarding curriculum design and the selection and implementation of scientifically research-based instructional strategies that ensure increased learning for all students.

Her professional accomplishments include Mathematics Teacher and Program Evaluator/Researcher for the Detroit Public Schools, Assessment and Evaluation Consultant for Wayne County RESA, Contracted Title I School Turn-Around Specialist and Program Evaluator for the Michigan Department of Education, V.P. of Achievement, Discipline & Design for the Edison Schools and Executive Director of Secondary Education for the Flint Community Schools.

Her most recent challenge has been to assume the role of President and Principal Consultant of Data Driven Systems, a leading school reform/evaluation consulting firm.
