Optimistic, exemplary and cutting edge describe my performance as a professional educator for the past 36 years. Throughout my career, I have held several positions which attribute to my experience and expertise as an Educational Consultant. My professional accomplishments in the field of education include an elementary and a middle school teacher, a union president, a chief negotiator, a Middle School Principal and Assistant Principal, a Curriculum Coordinator K-12, a Secondary Curriculum Director, a Curriculum Facilitator, and a Leadership Coach. Since January 2008 I have facilitated the Schoolwide Title I, Part A process for nine schools in the Southfield Public Schools District, Mildred C. Wells Academy in Benton Harbor and for Michigan Technical Academy High School in Redford.

As an education consultant, I consider myself competent in the areas of School Improvement/Reform, Team Building, Experiential Learning, Middle School Education, Leadership and Instructional Coaching, and in most areas of Curriculum and Instruction. In addition to being an independent consultant, I am a partner in an education consulting group, known as ERG (Educators Resource Group). I received my Bachelors and Masters Degrees with additional hours toward my Specialist Degree from Eastern Michigan University.
