Program Information:

Program Description as Provided by K-2 Learning Center, LLC: K-2 Learning Center, LLC provides tutoring services for kindergarten, first and second grade children. K-2 understands that every child is unique and our tutoring program is designed allow each child to progress at his own rate. Our curriculum is research-based to help students meet state and local standards in reading and math. K-2 students learn in a fun environment. Lessons include hands-on activities and games that are designed keep young students engaged and eager to learn. Before instruction begins, K-2 will assess each student. Then, in consultation with the student's parents, an Individual Learning Plan is developed which defines achievement goals and sets a timeline for their completion. Tutoring sessions are held 3 times per week for 2 hours for 8 weeks at a local school. If space in the school is not available, we will secure space in a nearby church, community center, or library.

The program description was created by the provider and has not been edited by the Michigan Department of Education.

Number of Students Served in 2007-2008: 25 Offers Transportation: No English Language Learner: No Students With Disabilities: No Place(s) of Service: Community Center, Some Schools as Selected by the District(s), Place of Religious Worship	Subject Areas: English, Mathematics Grades Served: K-2 Estimated Hours of Tutoring Per Student: 45 Number of Students to be Served: 10 - 75 Student-Teacher Ratios: <input checked="" type="checkbox"/> Classroom: 1 teacher per 5 students <input checked="" type="checkbox"/> Computer-based: Not available <input checked="" type="checkbox"/> Online instruction: Not available

Performance Information:

Consumer Satisfaction

Type of Rater	Number* of People Completing a Survey	Satisfaction Rating	This Provider's Rating	Statewide Average
Parents	2	Percent of parents who were satisfied with this tutor	100%	78%
	2	Average overall letter grade from parents	A	B
Teachers	13	Constructed letter grade from teachers for effects on classroom performance	A	C
	12	Percent of teachers who agreed this tutor positively impacted students' learning	58%	41%

*For many tutors, the number of surveys completed is very low. Readers should consider the number of responses when drawing conclusions about any provider.

Academic Achievement: There are limited or no data available on the basis of which to assess this provider's impact on academic achievement.

2008-2009 Service Areas (Limited to Applicable Districts):

Detroit City School District

How the Statistics Were Calculated:

Consumer satisfaction data is from a mail survey of parents and an online survey of teachers concerning students receiving supplemental education services in the 2007-2008 school year.

- Parent satisfaction statistics are based on responses to the question, "Overall, are you satisfied with this tutor?" Parents could respond "yes," "no," or "not sure."
- Parent letter grades are based on averaged responses to the question, "What overall grade would you give your child's tutor?" with response options of "A - Excellent," "B - Good," "C - Average," "D - Poor," or "E - Failing."
- The teacher letter grade for effects on classroom performance is from responses to seven questions about students' classroom performance. An average across all items (excluding items with no response) was calculated for each provider and the top 20% of scores were coded as "A," the next 20% were coded as "B," and so on through "E."
- The rating of teachers' perceptions of provider impact on student learning is based on responses to the agree-disagree question, "This tutor is positively impacting this student's learning." Responses of "agree" or "strongly agree" are considered.

Impact on the MEAP score is based on a hierarchical linear regression analysis of students receiving SES in the 2006-2007 school year compared to a control group matched to SES recipients based on 2006 MEAP score, economic disadvantage, special education status, limited English proficiency status, and former limited English proficiency status. The analysis controlled for the effects of students' schools and the 2006 MEAP score.

The overall grade is a weighted average of the consumer satisfaction and academic achievement data.
