Program Information:

Program Description as Provided by M.O.R.E. Learning: M.O.R.E. Learning, which stands for Multiple Opportunities for Remediation and Enrichment, uses a research-based curriculum that is guaranteed to provide improvement in student achievement. We use a specialized test to determine student needs and work with children at their level. Our goal is to make sure that all children we serve are able to perform at or above grade level each year of their schooling. Education is our highest priority, and we ensure that all children are treated as we would treat our own. Standard tutoring sessions last two hours a day, two days a week for approximately ten weeks. The teacher: student ratio is 1:5 in each class. Students are provided personal workbooks to use that are selected for their particular needs. All of our teachers are highly qualified persons who possess teacher certification and/or meet rigorous teaching criteria.

The program description was created by the provider and has not been edited by the Michigan Department of Education.

Number of Students Served in 2007-2008: 0
