Program Information:

Program Description as Provided by Angel Land Child Care and Parent Institute: The Angel Land program provides academic tutorial services for students in grades 6-12, with emphasis on improving achievement of the Michigan standards for reading, writing and mathematics in small group sessions, with the student/teacher ratio averaging 5/1, meeting a minimum of 2 hours a week. Angel Land provides workbooks and computer based lessons, with each student being administered a battery of academic assessments. The result of these assessments will be used to develop the individual achievement plan. Students identified for tutoring in reading/writing will receive services that advance reading and writing proficiency, comprehension skills and improve course grades. Those identified for math tutoring will build skills needs to successfully connect mathematical concepts in complex ways. We use Math Navigator and an Angel Land customized reading plan as our instructional material. 75% of our teachers are certified.

The program description was created by the provider and has not been edited by the Michigan Department of Education.

<p>Number of Students Served in 2007-2008: 591 Offers Transportation: At select sites only English Language Learner: No Students With Disabilities: Yes Place(s) of Service: Community Center, Some Schools as Selected by the District(s), Place of Religious Worship</p>	<p>Subject Areas: English, Mathematics Grades Served: 6-12 Estimated Hours of Tutoring Per Student: 28 Number of Students to be Served: 50 - 1000 Student-Teacher Ratios: <input checked="" type="checkbox"/> Classroom: 1 teacher per 5 students <input checked="" type="checkbox"/> Computer-based: 1 teacher per 8 students <input checked="" type="checkbox"/> Online instruction: 1 teacher per 30 students</p>

Performance Information:

Consumer Satisfaction

Type of Rater	Number* of People Completing a Survey	Satisfaction Rating	This Provider's Rating	Statewide Average
Parents	23	Percent of parents who were satisfied with this tutor	78%	78%
	22	Average overall letter grade from parents	B+	B
Teachers	51	Constructed letter grade from teachers for effects on classroom performance	C	C
	49	Percent of teachers who agreed this tutor positively impacted students' learning	49%	41%

*For many tutors, the number of surveys completed is very low. Readers should consider the number of responses when drawing conclusions about any provider.

Academic Achievement: There are limited or no data available on the basis of which to assess this provider's impact on academic achievement.

2008-2009 Service Areas (Limited to Applicable Districts):

Statewide

How the Statistics Were Calculated:

Consumer satisfaction data is from a mail survey of parents and an online survey of teachers concerning students receiving supplemental education services in the 2007-2008 school year.

- Parent satisfaction statistics are based on responses to the question, "Overall, are you satisfied with this tutor?" Parents could respond "yes," "no," or "not sure."
- Parent letter grades are based on averaged responses to the question, "What overall grade would you give your child's tutor?" with response options of "A - Excellent," "B - Good," "C - Average," "D - Poor," or "E - Failing."
- The teacher letter grade for effects on classroom performance is from responses to seven questions about students' classroom performance. An average across all items (excluding items with no response) was calculated for each provider and the top 20% of scores were coded as "A," the next 20% were coded as "B," and so on through "E."
- The rating of teachers' perceptions of provider impact on student learning is based on responses to the agree-disagree question, "This tutor is positively impacting this student's learning." Responses of "agree" or "strongly agree" are considered.

Impact on the MEAP score is based on a hierarchical linear regression analysis of students receiving SES in the 2006-2007 school year compared to a control group matched to SES recipients based on 2006 MEAP score, economic disadvantage, special education status, limited English proficiency status, and former limited English proficiency status. The analysis controlled for the effects of students' schools and the 2006 MEAP score.

The overall grade is a weighted average of the consumer satisfaction and academic achievement data.
